Annexes: 2 (available in English only)

Subject: Updating the International Register of Alerting Authorities

Action required: To update missing item in the alerting authority records for your country as maintained in the international Register of Alerting Authorities, preferably **not later than 16 February 2018**

Dear Sir/Madam,

A key rationale for maintaining the international Register of Alerting Authorities is that it simplifies access to standardized emergency alerts from authoritative sources. This feature is enabled when an alerting authority record includes a "CAP Feed URL" (for example <https://alerts.weather.gov/cap/us.php?x=0>), which provides a link to the actual online source that contains alerts compliant with the Common Alerting Protocol (CAP) standard. This feature can be used to maintain regional and global compilations of standardized emergency alerts. Such compilation is envisioned as the WMO Alert Hub, for example.

At present, the CAP Feed URL is provided in twenty-four of the alerting authority records in the Register (see Annex I). However, there are forty-seven records in the Register wherein the CAP Feed URL is missing from the alerting authority record, although that alerting authority is publishing a CAP feed with a known URL (see Annex II).

You are kindly requested to update the CAP Feed URL item in the alerting authority record(s) for your country, preferably not later than **16 February 2018**. The editor you have designated for your country's Register records can update these records. If any assistance in this regard is needed, please contact Mr S. Muchemi, Scientific Officer, Service Delivery Division in the Weather and Disaster Risk Reduction Services Department of WMO (SMuchemi@wmo.int).

I wish to thank you for your continued support in maintaining the Register of Alerting Authorities and for promoting the Programme and activities of WMO.

Yours faithfully,

(W. Zhang)
for the Secretary-General

To: Permanent Representatives (or Directors of Meteorological or Hydrometeorological Services) of Members of WMO - Registered Members (Register of Alerting Authorities) (limited distribution)
