Our ref.: 00644/2019/WDS/TCF/Miami-2019

8 February 2019

Annexes: 2 (available in English only)

Subject: RA IV Workshop on Hurricane Forecasting and Warning Miami, Florida, USA, 29 April to 10 May 2019

Action required: To complete the nomination form and submit it to WMO Secretariat **on or before 22 February 2019**

Dear Sir/Madam,

I am pleased to inform you that the Government of the United States of America has kindly agreed to host the RA IV Workshop on Hurricane Forecasting and Warning in Miami, Florida, from 29 April through 10 May 2019. Eight working days will be allocated to the hurricane forecasting and warning component (29 April - 8 May 2019) and two working days (9 and 10 May 2019) will be allocated to a training course on outreach and better communication with emergency managers.

The workshop will be conducted with simultaneous interpretation in English and Spanish. It will be held at the regional specialized meteorological centre, the Hurricane Center of the National Oceanic and Atmospheric Administration/National Weather Service (NOAA/NWS). Please find attached, as Annex I, an outline of the Provisional Programme. An information note for participants will be available in due course.

The workshop will provide training for hurricane forecasters from the region, assist RA IV Members in their efforts to improve operational tropical cyclone forecasting and warning, and help participants to understand and communicate better with the stakeholders engaged in the emergency decision-making process. Designed particularly for meteorologists with practical experience in operational tropical cyclone forecasting, the workshop will provide them with refresher training and updated information.

I am pleased, therefore, to invite you to nominate, from your service, an expert on hurricane forecasting and warning to participate in this workshop. To ensure the effectiveness and positive impacts of the workshop on the work of your service, it is strongly recommended that the nominated expert be a forecaster who is currently engaged in hurricane and associated weather forecasting, has a direct link to the operational tasks of your service, and meets the following requirements:

- Holds a university qualification or equivalent, preferably in geo-sciences (meteorology, hydrology, geophysics, environmental sciences, etc.);
- Is expected to continue working in your service for a number of years after participation in the workshop.

To: Permanent Representatives of Members of RA IV Hurricane Committee (limited distribution)

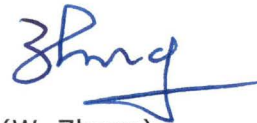

cc: Mr Juan Carlos Fallas Sojo, President of RA IV
 Mr Kenneth Graham, Director, RSMC Hurricane Center, Miami
 Dr Richard Pasch, Senior Hurricane Specialist, RSMC Hurricane Center, Miami

It is hoped that your country will take advantage of this opportunity by nominating a suitable expert.

Due to the limited funds available, it is hoped that your service will be in a position to cover the cost of participation of your nominated expert in this workshop.

I would be grateful if the completed nomination form (Annex II) could be returned to the WMO Secretariat **on or before 22 February 2019.**

Yours faithfully,

(W. Zhang)
for the Secretary-General

RA IV WORKSHOP ON HURRICANE FORECASTING AND WARNING

Miami, Florida, USA, 29 April – 10 May 2019

PROVISIONAL PROGRAMME

While the workshop will include lectures and presentations, emphasis will be placed on group interactions and practical, hands-on exercises. The main subject areas to be covered will include:

- The large-scale tropics - an overview
- An overview of hurricane research
- Tropical analysis and tropical waves
- Marine forecasting and other TPC/TAFB products
- Satellite applications, including rainfall, the Dvorak technique, microwave and scatterometer
- Tropical cyclone genesis and structure
- NWP, ensemble forecasting, and TC track prediction models
- Developing a user focus
- Doppler radar
- Storm surge
- Extratropical transition
- Interannual and intraseasonal TC variability/Seasonal forecasting
- Best track, CLIPER and wind radii CLIPER/Wind speed probabilities
- TC track and intensity forecasting
- Operational TC forecasting and advisory preparation
- Communication and coordination with emergency managers. Messaging:
 - Hurricane Risk
 - Tropical Cyclone Hazards (wind, rain, storm surges, tornadoes ...)
 - Uncertainty
 - NHC Advisory Products
 - NHC Wind Speed Probability and Storm Surge Products
- The Hurricane Liaison Team (Department of Homeland Security's Federal Emergency Management Agency)
- Coordination with the media
- Quiz for the whole workshop
- Conclusions and recommendations

The programme will also include current weather map discussions.

Note: 8 working days allocated to the hurricane forecasting and warning component and 2 working days specifically dedicated to a training to understand and communicate better with the emergency managers. A total of 12 days including weekend.

2019/WDS/TCP/RA IV MIAMI-2019, ANNEX II

RA IV WORKSHOP ON HURRICANE FORECASTING

Miami, Florida, USA, 29 April–10 May 2019

NOMINATION FORM

The Government of nominates the following candidate as a participant on the above training workshop:

Family Name			Mr / Ms / Dr
First Name			
Address			
City – Country			
Telephone	Office +	Home +	
Fax	Office +	Home +	
E-mail			
Date of Birth			
Passport No.			
Expiry Date			
Primary language*			

* For nominees whose primary language is **not** English, this nomination form **must** be accompanied by a relevant language proficiency certificate as a necessary condition for acceptance.

Qualifications (certificates, diplomas or degrees):

.....

Training in the field of meteorology (other than as noted in above):

.....

Present position and brief description of current duties (please include public weather services functions, if any):

.....

Brief description of past relevant professional/operational experience (please include experience in aspects of public weather services (e.g. media work, working with disaster management, public outreach and education, etc.) if any and/or relevant planned future work/activities):

.....
.....
.....

Name and address of person to be notified in case of emergency:

.....
.....
.....

.....

Date

.....

Signature of Permanent Representative

To be completed and returned by fax + 41 22 730 8021 or by mail, at the latest by **22 February 2019** to:
