

Our ref.: 8474/WDS/DPFS-PWS/SWFDP-SA

GENEVA, 17 September 2016

Subject: Nomination of participants to the SWFDP-Southern Africa Training Workshop on Severe Weather Forecasting and Warning Services Delivery, Pretoria, South Africa from 27 October to 4 November 2016

Action required: To nominate participants not later than **30 September 2016**

Dear Sir/Madam,

The Sixteenth World Meteorological Congress (Cg-16, (2011)) agreed that priority should be given to forecasting severe and high-impact weather and related-phenomena over a wide-range of forecast scales, including through the implementation of the Severe Weather Forecasting Demonstration Project (SWFDP) and by establishing synergies for example with flood forecasting, and recognized that this project is assisting WMO Members to deliver effective warning services through improved forecasting capabilities, using the "Cascading Forecasting Process". SWFDP-Southern Africa has been in Phase IV since 2012 to sustain operations and continue further developments with overall management responsibility by the Meteorological Association of Southern Africa (MASA). Capacity development of the participating countries in severe weather forecasting and delivery of services by the NMHSs to general public and specific users including media and disaster management and civil protection authorities for improved decision-making and DRR activities is one of the salient features of SWFDP-Southern Africa.

In this context, I have the pleasure to inform you that, at the kind invitation of the Government of South Africa, 2016 SWFDP-Southern Africa (Phase-IV) Training Workshop on Severe Weather Forecasting and Warning Services Delivery will be held in Pretoria, South Africa from 27 October to 4 November 2016. One of the objectives of the workshop is to promote coordination and engagement of NMHSs with users especially including disaster managers and media.

The workshop will mainly consist of two training sessions which will be attended by meteorologists (operational forecasters) and disaster managers for which I am seeking nominations from your country. For appropriate nominations of a disaster manager, I would appreciate it if you could coordinate the nomination with the National Disaster Management Office in your country. The requirements for nominations are as follows:

- a) An operational forecaster from your Service preferably one who has never attended such training before in order to reach out to many forecasters as possible. The nominated person will participate in the entire period of the above captioned training workshop

To: Permanent Representatives of Members of WMO (limited distribution - Angola, Comoros, Democratic Republic of Congo (DRC), Madagascar, Mauritius, Seychelles and United Republic of Tanzania)

- b) A representative from the Disaster Management Office of your country to attend week two (from 31 October to 4 November 2016) of the training workshop with a focus on warning services

Please note that the workshop will be conducted entirely in English. The Participant Nomination Form is available on the WMO website at following link:

http://www.wmo.int/pages/prog/www/DPFS/Meetings/RAI-SA-SWFDP_Pretoria2016/DocPlan.html

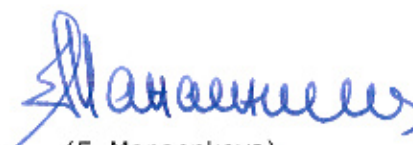

The development of a provisional programme for the workshop is in progress and it will be posted on the above mentioned WMO website. Given the limited funds available for this workshop, it is hoped that the respective governments will meet the expenses related to the participation of their representatives. However, if this is not possible, a request for financial assistance should be indicated on the Participant Nomination Form. For administrative purposes, separate forms should be completed for each nominee and all completed forms should be returned to WMO Secretariat at your earliest convenience but preferably not later than **30 September 2016**.

I should like to draw your attention to the following:

"In the case of non-staff members of the Organization who are authorized to travel at its expense and/or who are receiving a daily subsistence allowance, the WMO accepts limited responsibility for compensation in the event of death, illness or injury attributable to attendance at meetings or the performance of services on behalf of the Organization. These persons are therefore fully responsible for any expenses incurred as a result of events which are not attributable to attendance at meetings or the performance of services on behalf of the Organization and for arranging such life, health and other forms of insurance as they consider appropriate".

I would like to express my appreciation for your continued support in promoting the WMO Programmes and projects, and related activities.

Yours faithfully,

(E. Manaenkova)
for the Secretary-General

WORLD METEOROLOGICAL ORGANIZATION

Severe Weather Forecasting Demonstration Project (SWFDP) – South Africa
Training Workshop on Severe Weather Forecasting (GDPFS) and
Warning Services Delivery (PWS),

Pretoria, South Africa, 27 October – 4 November 2016

PARTICIPANT NOMINATION FORM

(Please use one form per participant)

(For Angola, Democratic Republic of Congo (DRC), Tanzania, Comoros, Seychelles,
Madagascar and Mauritius)

The Permanent Representative of : nominates the following
candidates:

- ☐ An operational forecaster from the National Meteorological or Hydrometeorological Service (NMHS) to participate in the entire two weeks of the above entitled training workshop from 27 October to 4 November 2016
- ☐ A disaster manager from the National Disaster Management Office to attend week-2 of the workshop on Warning Services Delivery from 31 October to 4 November 2016
