28 July 2022

Subject: Workshop on Aircraft Derived Data, 5–7 September 2022,
WMO Headquarters, Geneva, Switzerland

Action required: To nominate one or more experts to participate in the workshop, by
informing the WMO Secretariat, not later than **8 August 2022**

Dear Sir/Madam,

I am pleased to inform you that the World Meteorological Organization (WMO) Workshop on Aircraft Derived Data will be held as a hybrid event, WMO Headquarters, Geneva, Switzerland, from 5 to 7 September 2022 and coordinated by the Joint Expert Team on Aircraft-Based Observing Systems under the WMO Commission for Observation, Infrastructure and Information Systems (INFCOM).

This workshop has the overarching aim to raise awareness and share best practices on the potential opportunities to obtain and use aircraft derived data in the meteorological domain. It will particularly focus on derivation of meteorological data from automated aviation aircraft reports to support forecasting services to aviation and other meteorological applications. The intended audience of the workshop consists of Member National Meteorological and Hydrological Services (NMHS) experts, aviation sector experts, commercial operators and service providers, aviation standards representatives and avionics technical experts.

Information including a programme and links for remote access, can be found, or will later be available on the [WMO Community Platform website](#).

You are therefore invited to nominate one or more experts to attend this event, either in person or remotely. In the event that your expert wishes to attend the event in person, please notify the WMO Secretariat, no later than **8 August 2022**, noting that, due to limited resources to conduct this event, these expenses will need to be borne by your Government.

Experts intending to attend remotely are able to register via this [link](#).

I would like to take this opportunity to thank you for your continued support to WMO activities.

Yours faithfully,

Dr Wenjian Zhang
for the Secretary-General

To: Permanent Representatives of Members with WMO (limited distribution)
