GENEVA, 23 August 2012

Annex: 1 (available in English, French, Russian and Spanish)

Subject: WMO Fellowships Opportunities (2013)

Action required: For information and appropriate action, as required

Dear Sir/Madam,

This letter is to advise you of a range of WMO fellowship opportunities for studies commencing in 2013. Please carefully review the attached annex to identify any education and training opportunities relevant for your service and follow the steps and advertised timelines in the summary tables of Sections A and B.

To expand the range and number of fellowship opportunities available to Members, the WMO Secretariat is collaborating with a number of development partners. Careful note has been taken of the five high priority areas specified at the last Congress, and education and training opportunities related to these areas have been sought. Whilst it will still be possible for you to submit fellowship nominations at any time in any area, a significant portion of the fellowship funding will be dedicated to supporting nominations for those opportunities that build upon the five high priority areas, that incorporate funding support from other agencies and that are primarily targeted at developing and least developed countries and small island developing states.

Members are requested to carefully check the requirements and fully complete the nomination forms and provide all requested information before submitting them. Following up incomplete or invalid forms consumes valuable resources and delays the overall process, affecting all nominations. In particular please make sure that nominations address the Executive Council Criteria for selection and other important issues such as:

- (a) Nomination forms not signed by the Permanent Representative or authorized person;
- (b) Original sample signatures of the Permanent Representative have not been provided to the Secretariat;
- (c) Incomplete Fellowship Nomination forms submitted, missing documentation or attachments not in the required language;
- (d) Little or no justification for the request;

To: Permanent Representatives (or Directors of Meteorological or Hydrometeorological Services) of Members of WMO (PR-6654)

cc: Hydrological Advisers to Permanent Representatives

- (e) The person does not have proficiency in the language of study or does not provide the required documentation regarding their language proficiency. In some cases (Russia and China) this is not so critical as a language course can be included in the fellowship offer;
- (f) No cost-sharing offered;
- (g) Multiple candidates nominated with no priority listing for the candidates;
- (h) Person does not meet the age or other criteria.

Please note that within the framework of co-funding, there is also an opportunity for limited support to candidates who have already obtained some form of sponsorship for degree leading to PhD.

If you wish to submit a fellowship nomination for academic studies beginning in 2013, please return the duly completed and signed WMO Fellowship Nomination Form to the Secretary-General of WMO by the closing dates stipulated for that opportunity. The Nomination Form is provided at section C; downloadable forms are also available from: <http://www.wmo.int/fellowships>. The Nomination Form should also address any additional individual requirements by the respective cooperating partners and institutions. These are stipulated in the various sections in the attached brochure on WMO Fellowships Opportunities (2013).

Kindly note that applications for fellowships in China, Germany, Japan, Russia and the UK should be received at WMO by **31 January 2013**, and those in the Republic of Korea by **30 September 2012**. Please note that decisions on the granting of a fellowship for an attachment to desks at the National Oceanic and Atmospheric Administration (NOAA) (see section VII) of the United States of America, are made by relevant desks at NOAA. Applicants are therefore advised to coordinate with the appropriate NOAA offices before forwarding an application to WMO.

Applications for fellowships to undertake studies in any institution world-wide can be made at any time. However, as stated in the Executive Council Criteria, priority will be given to those willing to utilize their fellowships at WMO Regional Training Centres, whose contacts and corresponding courses are listed in section C.

As the need to train more experts in meteorology, hydrology and allied disciplines continue to grow, I would appreciate it if you could indicate if you are able to offer any form of agreement with WMO for the joint provision of fellowships for the education and training of the next generation of experts from least developed, developing and small island developing countries. I would also like to seize this opportunity to express my personal gratitude to those Members who are currently rendering support to other Members through cooperation with the WMO fellowship programme.

I take this opportunity to thank you for your cooperation with WMO on fellowships and other issues relating to education and training.

Yours faithfully,

(E. Manaenkova)
for the Secretary-General

WMO FELLOWSHIPS OPPORTUNITIES (2013)

WORLD METEOROLOGICAL ORGANIZATION

INTRODUCTION

The WMO Fellowship Programme (<http://www.wmo.int/pages/prog/dra/etrp/fellowships.php>) is designed to assist WMO Members in least developed and developing countries, small island developing states and land-locked developing countries meet some of the education and training needs of their staff.

WMO is pleased to partner with the China Scholarship Council, Nanjing University of Information Science and Technology (China), the University of Hannover (Germany), Kyoto University (Japan), Ewha Womans University (Korea), the United Kingdom of Great Britain and Northern Ireland and the University of Reading, the United States National Weather Service and the Russian Federation to advise you of the following fellowship opportunities in 2013 (Section A). In all cases to be considered for a WMO fellowship the applicants must meet the academic and language requirements of the host institution / country. For China and Russia, candidates who meet the academic requirements but are not selected for a WMO fellowship may be offered a fellowship from the Russian and Chinese governments. The financial support from the non-WMO fellowships is usually less than for the WMO fellowships but will allow your fellows to undertake their studies.

In addition to these co-sponsored fellowship opportunities Members are encouraged to review Section B for additional education and training opportunities offered by WMO Regional Training Centers .

INFORMATION FOR THOSE CONSIDERING APPLYING FOR FELLOWSHIPS

There is a strong and growing demand for fellowships. Due to the limited available funds Members receiving fellowships are expected to undertake some cost sharing, for example funding the cost of return airfares for fellowship recipients. Members should also note that it is not possible to supply reunion airfares to fellows undertaking programmes longer than two years.

In addition to the Executive Council (EC) Criteria for selection of WMO Fellows (note section 5 regarding priorities, http://www.wmo.int/pages/prog/dra/etrp/documents/critfel_en.pdf) the sixteenth WMO Congress reiterated that new fellowships should not be awarded to Members with outstanding reports. The full text of the EC Criteria can be found in the Fellowship Nomination Form which is contained in Section C. Members will be advised by the Education and Training Office of any outstanding reports in the acknowledgement letter of the fellowship request. Members can also check directly with the Education and Training Office at any time regarding when reports are due.

To maximize the chance of your candidates being awarded a WMO fellowship please read all of the documentation carefully and supply all of the requested documents, in time, in the indicated languages. It is strongly recommended to submit one candidate for any category. If, nominating more than one candidate please indicate your priority order. For some fellowships (China and Russia) there are specific age limits that MUST be adhered too. These are not WMO conditions, rather the award conditions of the country and cannot be modified. Failure to fully complete the application forms and/or supply all of the required documentation will stop your nomination form being processed and could lead to it being rejected. Applicants should be aware of the fact that decisions on awards are largely guided by the WMO Executive Council Criteria for award of fellowships, as in Section C of this document.

Section A: 2013 fellowship campaign courses

Host Country	Course type	Target Region	Language(s)	Minimum Requirements *	Applications close	Send application forms to	Maximum number of awards / year
I - <u>China</u> a) <u>CSC</u>	BSc and MSc in Meteorology / Hydrology	Africa LDCs and SIDS	Chinese but it may be possible to do some MSc's in English	For BSc applicants: - Must be younger than 25 years if age on 1 September 2013 For MSc applicants: - Must be younger than 35 years of age on 1 September 2013 - Must hold at least a bachelor's degree in science	31 January 2013	WMO	15 with differing levels of support
I - <u>China</u> b) <u>NUIST</u>	BSc and MSc in Meteorology	LDCs and SIDS	Chinese	For BSc applicants: - Must be younger than 26 years if age on 1 September 2013 For MSc applicants: - Must be younger than 36 years of age on 1 September 2013 - Must hold at least a bachelor's degree in science	31 January 2013	WMO	5
II - <u>Germany</u>	MSc in Water Resources and Environmental Management	Global	English (IELTS score of 6.0 or more)	- Must hold a bachelor's degree in a field related to the WATENV Masters programme, e.g. civil engineering, environmental sciences, natural sciences or geosciences.	31 January 2013	University first then WMO when provisional admittance obtained	5
III - <u>Japan</u>	MSc	Selected Countries	English	- Must hold at least a bachelor's degree	31 January 2013	WMO	2
IV - <u>Rep. of Korea</u>	MSc	Selected Countries	English	- Must hold at least a bachelor's degree	30 September 2012	WMO	2
V - <u>Russia</u>	BSc and MSc in Meteorology / Hydrology / Ecology / Economics and Environmental Management / Oceanography	Primarily RA VI and RA II countries	Russian	For BSc applicants: - Must be younger than 27 years of age on 1 September 2013 - Three years or less since candidate undertook last schooling or education - Must have completed an educational level equivalent to the secondary education in Russia - Basic subjects are expected to be not less than 80 per cent of the highest level marks For MSc applicants: - Must be younger than 35 years of age on 1 September 2013 - Three years or less since candidate undertook last schooling or education - Must hold at least a bachelor's degree in science	31 January 2013	WMO	20 with differing levels of support
VI - <u>UK</u>	MSc in Applied Meteorology and Climate with Management	Global	English (IELTS score of 6.5 or more)	- Must hold a good honours bachelor's degree in a physical environmental or engineering science or mathematics. - Students with other qualifications may be admitted but must discuss their case with the Admissions Tutor.	31 January 2013	University first then WMO when provisional admittance obtained	5
VII - <u>USA</u>	4 month secondments in Meteorology and Climate	Africa, South and Central America	English	See Section VII.	No closing date	WMO or US NWS	24

* Please note that applicants who do not meet the criteria will not be considered.

I – China

a) China Scholarships Council (Meteorology and Hydrology)

A Memorandum of Understanding (MoU) between WMO and the Ministry of Education of the Peoples Republic of China (MOE-PRC) was signed in April 2007 for cooperation in the implementation of long-term fellowships in the fields of meteorology and operational hydrology. This cost-sharing arrangement allows for basic education and specialized training to be organized in training institutions and universities in China, including the WMO Regional Training Centres in Beijing and Nanjing. Up to fifteen fellowships a year for BSc and MSc studies can be awarded each year to candidates from African countries under the initial agreement. Ten of these candidates are to be selected from African countries, while the remaining five will be selected from Least Developed Countries in Asia and Pacific Regions, and Small Island Developing States (SIDS). Since the signing of the MoU, 54 fellowships have been offered to 35 countries.

Under this joint scholarship programme, the Chinese authorities will provide partial fellowship support to cover tuition, lodging and comprehensive medical insurance and medical care. WMO will provide a monthly stipend of USD 235 plus a monthly book allowance of USD 100 for the whole period of study. A thesis allowance of USD 750, death and disability insurance coverage and a termination allowance of USD 200 are payable upon successful completion of the studies and the submission of fellowship monitoring reports. Other expenses shall be at the cost of the fellows. It should be noted that due to the high level of competition for this fellowship, in the course of the selection process, priority may be given to the candidates whose sponsoring government offer some level of cost-sponsorship such as international travel. Please note that WMO does not provide home leave travel during the period of fellowship and fellows are responsible for excess baggage.

If you wish to nominate a candidate to commence academic studies in 2013, please return to the Secretary-General of WMO, a duly completed and signed WMO Fellowship Nomination Form (FNF) (available on: <http://www.wmo.int/pages/prog/dra/etrp/fellowships.php>, a copy is attached in Section C) and the China Scholarship Council (CSC) online Application form (available on: <http://laihua.csc.edu.cn>). For those who cannot make the online application, a copy of CSC application form is attached in Annex I-I but preference is given to the online application. Given that limited slots are available for the whole of Africa, not more than one fellowship can be offered to a country during any particular academic year. In order to enhance the decision making process by the WMO Fellowship Committee, it is suggested that not more than one application is forwarded to WMO by any nominating Permanent Representative. Such a candidate should have gone through screening by a Selection Committee at national level, as stipulated in section VI of the Fellowships Nomination Form.

Candidates for MSc studies must be younger than 35 years of age on 1 September 2013 and candidates for BSc studies must be younger than 25 years of age on 1 September 2012. Before completing the CSC Application form (in Chinese or English), the candidate should carefully read the Notes on the last page of the CSC application form. More information on the Chinese scholarships can be found on the following Website: <http://www.csc.edu.cn/Laihua>. The BSc programme is typically 5 years (1 year of Chinese and 4 years of academic study). The MSc programme is typically 3 years but in some circumstances it may be possible to complete it in 2 years.

A check list to assist you in completing all of the information is attached as *Annex I-II*.

b) Nanjing University of Information Science and Technology (NUIST)

A Memorandum of Understanding was signed in January 2012 between WMO and the Nanjing University of Information Science and Technology (NUIST) which should provide up to five scholarships per year to the WMO Members, with preference given to nominations from Least Developed and Developing Countries (LDCs), and Small Island Developing States (SIDS). The following age criteria apply: BSc candidates must be less than 26 years old on 1 September of the year they commence studies; MSc candidates must be less than 36 years old on 1 September of the year they commence studies.

Fellows are expected to cover their international transportation. Successful candidates will be required to study Chinese language in NUIST during the first year before they proceed to their regular degree programmes.

NUIST will cover tuition, accommodation, medical insurance and stipend. WMO may provide complementary death and disability insurance to supplement this arrangement.

Interested candidates are required to apply to WMO through the Permanent Representative of their countries by completing the Fellowship Nomination Form (FNF) in section C and Application Form for NUIST-WMO Fellowships Education Programme (*Annex I-III*)

- ☐ 外国人体格检查记录(复印件)/Foreigner Physical Examination Form (Photocopy).
- ☐ 来华学习计划/Study Plan in China.
- ☐ 所发表的文章等/Articles or Papers Written or Published.
- ☐ 美术作品(本人作品彩照六张)、音乐作品(本人音乐作品盒式录音带一盘)(只限申请美术和音乐专业的申请人)/Examples of Art (6 color pictures) and Music (1 audio tape) Work (Only for the applicants applying for Fine Arts and Music).
- ☐ 其它附件(请列出)/Other Attachments (List Needed): _____

注: 每份申请材料最多不超过 20 页, 请全部使用 A4 纸。

Each set of the complete materials should not exceed 20 pages. Please use DIN A4.

无论申请人是否被录取, 上述申请材料恕不退还。

Whether the candidates are accepted or not, all the application materials will not be returned.

◆ 申请人保证/I Hereby Affirm That:

1. 申请表中所填写的内容和提供的材料真实无误;
All information and materials given in this form are true and correct.
2. 在华期间, 遵守中国的法律、法规, 不从任何危害中国社会秩序的、与本人来华学习身份不符合的活动;
During my stay in China, I shall abide by the laws and decrees of the Chinese government, and will not participate in any activities in China which are deemed to be adverse to the social order of China and are inappropriate to the capacity as a student.
3. 来华后服从 CSC 所安排的就读院校和学习专业, 不得无故要求变更学校和所学专业;
I will agree to the arrangements of my institution and specialty of study in China made by CSC, and will not apply for any changes in these two fields without valid reasons.
4. 在学期间, 遵守学校的校纪、校规, 全力投入学习和研究工作, 尊重学校的教学安排;
During my study in China, I shall abide the rules and regulations of the host university, and concentrate on my studies and researches, and follow the teaching programs arranged by the university.
5. 按照规定参加中国政府奖学金年度评审;
I shall go through the procedures of the Annual Review of Chinese Government Scholarship Status as required.
6. 按规定期限修完学业, 按期回国, 不无故在华滞留;
I shall return to my home country as soon as I complete my scheduled program in China, and will not extend my stay without valid reasons.
7. 如违反上述保证而受到中国法律、法规或校纪、校规的惩处, 我愿意接受中国国家留学基金管理委员会中止或取消奖学金及其它相应的处罚。
If I am judged by the Chinese laws and decrees and the rules and regulations of the university as having violated any of the above, I will not lodge any appeal against the decision of CSC on suspending, or withdrawing my scholarship, or other penalties.

申请人签字/Signature of the Applicant: _____ 日期/Date: _____

(无此签名, 申请无效/The application is invalid without the applicant's signature)

填表说明 (每一项数字与申请表中每一项序号相对应):

GUIDELINES FOR FILLING IN THIS FORM (NUMBERS REFERRING TO THE VARIOUS BLOCKS):

1. 本项所有内容申请人必须如实填写。
Personal information about the applicant must be filled in truly and correctly.
2. 请列出申请人已经完成或即将完成的各级教育, 包括中学、职业教育及高等教育各项。请随材料附上经公证的最高级教育的学历证明、毕业证书或学位证书的原件复印件和英文翻译件。
Please provide the following information for all completed secondary, vocational, technical, undergraduate or post graduate training and qualifications. Any incomplete courses should also be listed. One notarized copy of your official transcripts certificates and notarized copies of English translations of your highest education must be included with each application form.
3. 请列出申请人曾经从事和现在从事的工作。
Please clarify your work experiences and you current post.
4. 本项将表明申请人的语言情况, 对申请人来华后的课程安排及授课语言非常重要。请随材料附上有关证明材料。
Please state your knowledge of languages, especially Chinese and English. If you have passed a language test, please include a copy of the results in your application materials. This is very important because it will decide your teaching language in China.
5. 请申请人按本项提示选择来华后的学习计划, CSC 有权作相应调整。
The applicant will choose the detailed information concerning his study in China according to the clues given in this cell. CSC is entitled to make any necessary adjustment according to the applicant's preferences.
 - a. 请选择你申请来华学习的类别。
Please choose what level of study you want to be engaged in in China.
 - b. 请详细写出你申请来华学习的专业或从事研究的专题。
Please specify your subject or field of study in China.
 - c. 请从接受中国政府奖学金留学生的高等学校中选择三所并填写在本栏中, 你的选择仅作为 CSC 安排学校时的参考。如果你已经被某所中国高校录取, 请附上该校的《录取通知书》或接受函的复印件。
Please choose three preferences of Chinese institutions among the Chinese universities which can accepted Chinese Government Scholarship students and list them in the blanks here. The final arrangement of institution is subject to the adjustment of CSC with your choices as references. If you have been accepted by a Chinese university, please attach the copy of their admission notice to your application materials.
 - d. 请标明你所申请的来华学习时间。
Duration of the major study applied in China.
 - e. 由于中国高校的主要授课语言为汉语, 所以来华后的汉语补习非常重要。请在该项标明你是否需要汉语补习及所希望的汉语补习时间。
Since the teaching language of Chinese universities is Chinese, it's very important for you to tell us in this cell whether you need elementary Chinese study prior to your major study or not. If "Yes", please indicate the duration of the Chinese study (not included in the length of major study).
6. 请认真填写此项, 它对于学校确定申请人的学习专业及授课教师非常重要。请说明你从事研究的题目或基本内容, 亦可以列出你希望的一些课程。可另附纸。
Please illustrate the subject of your research or the main content of your study, you can also give some courses you want to attend in China. It is crucial for the university to decide your major and arrange the professor for you.
7. 请列出申请人曾经发表的或曾写过的论文、著作、作品。
Please list here your academic papers, writing and artwork published or written, if any.
8. 中国政府奖学金有全额奖学金和部分奖学金两种, 请选择你申请的一种。
Choose the Scholarship you applied between the two offered by Chinese government – full scholarship or partial scholarship.
9. 你的推荐人和推荐机构。
The person or organization that recommend you for this scholarship.
10. 在华联系人或联系机构, 关于申请人在华的有关事务, 我们将与其联系。
The guarantors charging your case in China, we will contact them for your case when necessary.
11. 如果你曾在中国学习或工作过, 请告知你在华的学习院校或工作单位。
If you had ever been to China for study or work, please specify your institution, employer and time in China.
12. 申请人亲属的基本情况。
General information about the applicant's family members.

II – Germany

Leibniz Universität Hannover, Germany - - (Water Resources and Environmental Management)

Since late 2009 WMO has been able to support fellows from Africa, Asia and Pacific, Europe and South America to undertake a two-year International Masters Programme in Water Resources and Environment (WATENV) at Leibniz Universität Hannover, Germany. In continuation of the arrangement with the university, WMO will again offer a small number of fellowships for suitably qualified personnel (university graduates) with effect from October 2013.

Details of the course and University can be found at <http://www.watenv.de>. It is recommended that the online university application form (available from http://www.iww.uni-hannover.de/en-us/watenv/Downloads/WATENV_application_form.pdf, in English only) are used for application for the University. Students must hold a B.Sc. degree (grade "good" or better) in a field related to WATENV, e.g. civil engineering, environmental sciences, natural sciences or geosciences. Prospective applicants should be aware of the need for English language proficiency to follow the course (IELTS score of 6.0 or more). It is highly recommended that candidates also apply for the Deutscher Akademischer Austausch Dienst (DAAD) "Study Scholarships for a postgraduate course with relevance to developing countries" using the application form available from the above URL. For this DAAD programme, a professional experience of at least two years is necessary. The list of supported countries is available from http://www.daad.de/imperia/md/content/entwicklung/hochschulen/ast/dac-landerliste_berichtsjahre_2008-2010_ast_engl.pdf. The DAAD application deadline is 30 September of the year before commencing the studies. Applicants not selected for a WMO fellowship might still be included in the DAAD ranking list for the following year.

As the selection process will involve WMO and the University, the candidates will need to send the completed university application form and requested documents, including academic transcript and English language test scores (TOEFL, IELTS), to the WATENV office at Leibniz Universität. A list of all required documents for university application can be found at <http://www.iww.uni-hannover.de/en-us/watenv/Application/>. Please note on the application form that will also be applying for a WMO fellowship.

A copy of the university application form should also be sent to WMO at the same time for follow-up with the University. Leibniz Universität will notify candidates whether they are offered admission to the programme. If the candidate is offered admission, she/he should then submit a WMO Fellowship application unless she/he has been successful in obtaining support via the DAAD programme.

Nominations for a WMO fellowship, should use the WMO Fellowship Nomination Form (<http://www.wmo.int/pages/prog/dra/etrp/fellowships.php>) and provide a copy of the Leibniz Universität admission letter and other supporting documentation.

Members can also submit parallel nominations to the University for DAAD support. Member countries are expected to cover the return airfare costs for their WMO Fellowship candidates. For those willing to seek sponsorship from other sources, WMO is prepared to give letter of recommendation in support of such an endeavour.

III – Japan

Two short-term fellowship opportunities at Kyoto University, Japan

Fellowship opportunities at Kyoto University, Japan in 2013 for training under Kyoto University's Global Centres of Excellence (GCOE) Programme on "Sustainability/survivability Science for a Resilient Society Adaptable to Extreme Weather conditions" (<http://ars.gcoe.kyoto-u.ac.jp/index.php?id=3>). The programme focuses on *adaptation* to climate change, extreme weather phenomena such as cyclones, storms, floods, droughts, and sea level rise, and subsequent water-related hazards that seriously affect people and societies around the world.

Interested candidates could be officially nominated through the WMO Fellowship nomination procedure. This year, Kyoto University will only accept nominations from the following countries: Niger, Ghana, Gambia, Egypt, Kenya and Tanzania from Africa; and Brunei Darussalam, Cambodia, Fiji, Indonesia, Kiribati, Laos, Malaysia, Federated States of Micronesia, Myanmar, Papua New Guinea, Philippines, Samoa, Solomon Islands, Thailand, Democratic Republic of Timor-Leste, Tonga, Vanuatu and Vietnam from Asia and Pacific region. Only one nomination is expected from any particular Member.

Prospective candidates must have at least a Bachelor's degree, preferably Master's degree and/or significant practical and/or research experiences in National Meteorological/Hydrological Services (NMHSs) in relevant fields. The applicants must also be fluent in English as the language of instruction will be in English. There is no Japanese language prerequisite to participate in this programme.

The training will consist of selected course work in combination with intensive research activities under the close supervision of one or more of professors in the GCOE Programme. Successful candidates will consult with an assigned supervisor about specific training contents, however, the areas of study should be 1) within the framework of the Kyoto University's "Sustainability/survivability Science for a Resilient Society Adaptable to Extreme Weather Conditions" Program; 2) in line with the interests of the NMHS of the fellow's home country; and 3) related to one of the WMO priority areas.

Successful candidates should start the training in Kyoto, Japan no later than 1st of October. The training will end in February 2014.

The full cost for the programme will be covered by Kyoto University, including airfare, accommodation, stipend, and visa application fee. The insurance will be covered by WMO. No tuition fee will be applied.

If you wish to nominate a candidate, please complete and return to the Secretary-General of WMO, a duly completed and signed WMO Fellowship Nomination Form (FNF), all relevant supporting documents including Medical Clearance Certificate, recent chest X-Ray, copies of transcript, relevant diplomas and certificates, and English language certificate such as TOEFL and IELTS scores. In addition, a candidate to this programme is requested to submit a research plan summarized in one A4 page.

IV – Republic of Korea

Opportunities for women at Ewha Womans University

There is increasing importance being given to higher education for female professionals in this area so that women in developing countries are properly represented and fully integrated into the decision making process regarding these issues. It is in this regard that WMO entered into an agreement with Ewha Womans University in May 2012 to jointly promote education of women in meteorology.

Ewha Womans University (EWU), founded in 1886, is the world's largest female educational institution and is also highly regarded institution for female education in the region. The unconventional use of the term "Womans" has a special meaning which underscores a philosophy that Ewha's education focuses on an individual woman not just many unrecognized women. From 2012 EWU started a graduate program in Meteorology, Department of Atmospheric Science and Engineering, conferring M.S. and Ph.D, degrees, with English as the medium of instruction.

Under this arrangement, EWU shall provide up to two scholarships per year for study in EWU master's programs to fellows, through WMO. One of these scholarships will be the Ewha Global Partnership Program (EGPP) scholarship, which covers the full tuition fee, on-campus dormitory fees meal plan, and airfare of the student. The other scholarship will cover the full tuition fees of the student with WMO covering stipend and airfare if required. WMO may provide health, death and disability insurance, book allowance to students to supplement this arrangement.

Interested female candidates are required to apply to WMO through the Permanent Representative of their countries by completing the Fellowship Nomination Form (FNF) in Section C. Candidates are also required to fill the Ewha's Application documents below, which can be downloaded from the link at http://home.ewha.ac.kr/~eenter/english/html/apply/apply_e.html

- Ewha Womans University Application for Admission.
- Personal Statement - Study Plan [Form 1]
- Letter of Recommendation [Form 2]
- EGPP Scholarship form [Form 3]
- International Exchange Scholarship Form [Form 4]

Prospective candidates must have at least a Bachelor's degree, and practical and/or research experiences in NMHSs in relevant fields. The applicants must also be fluent in English as the language of instruction will be in English. There is no Korean language prerequisite to participate in this programme.

V – Russia

Russian State Hydrometeorological University (RSHU), St Petersburg - (Meteorology, Hydrology, Ecology, Environmental Management, Oceanography)

The Government of the Russian Federation annually offers assistance for people from other countries to study in the Russian Federation in different fields, mainly in Meteorology and Hydrology but also in Ecology, Economics and Management, Oceanography. Over the last 50 years more than 450 personnel from WMO Member countries have successfully completed studies at the Russian State Hydrometeorological University (RSHU) in St Petersburg (*Annex V-I*) and gone on to influential and senior positions in their National Meteorological and Hydrological Services (NMHSs). In the last 10 years more than 50 of them were also supported by WMO fellowships.

Under this scholarship programme, the Russian Federation authorities fully cover tuition fee (including a preparatory Russian language course) and provide monthly stipends enough to cover expenses related to accommodation at the university hostel and local public transportation.

WMO can provide a monthly stipend of USD 500, comprehensive medical insurance plus a monthly book allowance of USD 100 for the whole period of study. A thesis allowance of USD 750 and a termination allowance of USD 200 are payable upon successful completion of the studies and the submission of fellowship monitoring reports. Please note that WMO does not provide funding for home leave travel during the period of fellowship and fellows are responsible for excess baggage.

If you wish to nominate a candidate to commence in the academic year 2013/2014, please complete and return to the Secretary-General of WMO, a duly completed and signed WMO Fellowship Nomination Form (FNF), available on: http://www.wmo.int/pages/prog/etr/fellowship_en.html, and the Russian Federation Scholarship (RFS) Application form (*Annex V-II*).

Candidates for MSc studies must be younger than 35 years of age on 1 September 2013 and candidates for BSc studies must be younger than 27 years of age on 1 September 2013. Before completing the RFS Application form (in Russian or English), the candidate should carefully read the Notes on the RFS application form. Information regarding RSHU can be found on their website <http://ums.rshu.ru/> and detailed information on their syllabus can be found in the following pdf <http://ums.rshu.ru/file197>.

A check list to assist you in completing all of the information is attached as *Annex V-III*.

Russian State Hydrometeorological University (RSHU), WMO RTC in the Russian Federation

195196 Russia St. Petersburg Malookhtinsky ave., 98 www.rshu.ru
boqush@rshu.ru; mamaeva@rshu.ru
Tel: +7 812 444 56 36, +7 911 217 55 90
Fax: +7 812 444 56 36, +7 812 444 60 90

The Russian State Hydrometeorological University (RSHU) is higher educational institution and university component of the World Meteorological Organization (WMO) Regional Training Center (RTC) in the Russian Federation. RSHU offers a range of programmes including a BSc (4 academic years after secondary school certificate), Diploma Specialist (5 academic years after secondary school certificate), MSc (BSc + 2 academic years) and PhD (MSc + 3 academic years) in Meteorology, Hydrology, Oceanography, Economics, Ecology or Environmental Management. You can find our full curricula in English at <http://ums.rshu.ru/file197>.

RSHU was established in 1930. It is a leading university in Russia specializing in meteorology and hydrology. RSHU has the following faculties:

- Faculty of Meteorology;
- Faculty of Hydrology;
- Faculty of Oceanography;
- Faculty of Ecology and Physics of the Environment;
- Faculty of Economics and Social and Humanitarian Sciences.
- Faculty of Information Systems and Geotechnologies.

In total more than 170 WMO Fellows have graduated from RSHU. We currently have more than 3700 Russian students and more than 320 foreign students from 43 countries undertaking study at the University.

The Government of the Russian Federation offers fellowships to approved foreign students to study at RSHU. The assistance includes waiving of tuition fees, accommodation at the University Hostel for lower price and a monthly stipend to cover internal travel expenses.

THE RUSSIAN GOVERNMENT SCHOLARSHIPS WINNING CONDITIONS

Candidates for admission to RSHU for the BSc are required to have an educational level equivalent to the complete secondary education in Russia. Their results on basic subjects are expected to be not less than 80 per cent of the highest level marks. On the other subjects candidates are also supposed to have good marks.

The gap between the time of graduating from school, college or technical college and the time of entering any of the higher educational institutions of Russia should not exceed 3 years. Candidates for admission for a BSc course should be less than 27 years old on 1 September 2013, for MSc less than 35.

It is necessary for all candidates to undergo a medical examination, including HIV blood test, and provide a certificate indicating that their health permits them to stay in the Russian climate. In case health reasons prevent an admitted candidate from studying in the Russian Federation, he/she will have to leave Russia, and the traveling expenses are to be paid by the participant or their Government.

Each candidate for admission should submit to RSHU through the WMO ETR Office the following documents, composing his/her Personal File:

1. An Application Form

2. A copy of their Educational Certificate/Diploma, indicating marks for each subject studied and showing academic progress. A copy of Secondary School Certificate giving admission to higher education institutions in home country should be presented in the case of candidates applying for a BSc at RSHU. Candidates seeking admission to a post-graduate course should submit a copy of their BSc and/or MSc Diploma (in Science) together with the Full Record of subjects studied, marks on each subject indicated and a list of publications (if there are any). Please note that WMO does not support PhD programme under this fellowship arrangement.
3. Health Certificate issued by the officially authorized Medical Body.
4. Result of HIV blood test issued by the officially authorized Medical Body.
5. Copy of passport "photo page".
6. Since the working language at RSHU is Russian, candidates must have an official confirmation of their knowledge of the Russian language (certificate or language test result). If the candidate does not speak Russian, he/she is welcome to complete a one year special welcome course at RSHU including Russian language and Math, Physics and Chemistry in Russian.

Please note that ALL documents listed above should be translated into Russian and certified by the Embassy of the Russian Federation in the home candidates country. All the documents should have reached WMO by 1 May 2012.

Candidates who have been admitted to the RSHU must arrive in the Russian Federation between 25 August and 15 September.

ATTENTION!

The RSHU does not cover international travel expenses of candidates to St. Petersburg and from there back upon completion of the studies. RSHU only provides transfer from airport/railway station to RSHU. RSHU is not responsible for scholars' families staying in Russia.

Candidates applying for training at RSHU are also recommended to apply for a WMO fellowship for study at RSHU. The WMO fellowship offers a monthly stipend that covers full living expenses including medical insurance in St. Petersburg during all period of study and the preparatory welcome language course. It may also cover international travel expenses.

CONTACT PERSON AT RSHU:

Dr. Maria Mamaeva, Chief of International Relation Office

Office Tel/Fax: +7 812 444 56 36, mob: +7 911 217 55 90, mamaeva@rshu.ru

VI – United Kingdom

University of Reading (Masters Degree in Applied Meteorology and Climate with Management)

For a number of years the United Kingdom of Great Britain and Northern Ireland (UK) Met Office has been working with WMO through UK VCP to sponsor students in the UK and abroad to complete university courses across a number of different subjects from meteorology to business. For the next academic year (October 2013 – October 2014) the UK Met Office in partnership with WMO and the University of Reading are offering a number of fellowships for candidates from developing countries to complete this new one-year Masters degree in Applied Meteorology and Climate with Management. It is increasingly recognised that there is a need to ensure that relevant climate information is integrated into planning, policy and practice at various levels, and this has been reiterated in the recently established Global Framework for Climate Services (GFCS). The aim of this new course is to help participants develop skills to assist with the provision of effective weather and climate applications/services. Further details on the course, and university application form, can be found at: <http://www.met.reading.ac.uk/pg-taught/>. If you have queries of any nature, address them to mscinfo@met.reading.ac.uk.

Under this scheme, applicants have the responsibility to secure an admission to Reading University. Consequently, applicants should have the necessary qualifications (academic and English language, IELTS score of 6.5 or more) to be accepted onto this course and should submit an application directly to Reading University. Only candidates with a unconditional provisional letter of admission will be considered for a WMO fellowship. Preference for the fellowships will, however, be given to applicants from Least Developed Countries. Only one application is expected from any particular Member.

If you are interested in submitting a candidate for the academic year 2013/2014:

1. the candidate must first apply to the University of Reading and obtain an admission offer for the course (please note, it is recommended that candidates should apply early to Reading University to allow enough time for assessment to be made and an acceptance letter issued.
2. complete and return to the Secretary-General of WMO:
 - a. A duly completed and signed WMO Fellowship Nomination Form (FNF) (available on: http://www.wmo.int/pages/prog/etr/fellowship_en.html);
 - b. A duly completed UK application form (see annex VI-I);
 - c. A copy of the admission letter from the University of Reading;
 - d. A copy of the page in your national passport showing your photograph and personal details.

UK APPLICATION FORM (ADDITIONAL INFORMATION)

For further details on the Masters degree in 'Applied Meteorology and Climate with Management', and Reading University application form, please view the link at: <http://www.met.reading.ac.uk/pg-taught/>

Personal & Educational Details:

Family name:				(Please complete the following table for higher education i.e. post secondary education)
Given name:				
Nationality/ Country of residence:				
Gender: (Male/Female):	Male <input type="checkbox"/>	Female <input type="checkbox"/>		
Date of birth:				
Current Employer:				

Name of Educational Institution	Date: From – To (Year)	Qualification received & subject (degree/diplomas)	Grade

Have you participated in any other specialized courses? If yes, please note what the course was, where it took place and when it was taken:

Statement of your suitability for the proposed fellowship:

Please include in the statement below a detailed case for your suitability for this study fellowship, including:

- Your main motivations for applying for this course
- Your professional plans for the future and how you would like to develop your career within your organisation – and how the course can help with this.
- In particular, we are very interested to know how you believe that you will be able to contribute to the future plans of your organisation as a result of skills gained from this fellowship. Please give as much detail as possible as to how you hope to be able to link in with, and contribute to, the strategic development plans for your organisation.

VII – USA

Attachment to Desks at the National Oceanic and Atmospheric Administration (NOAA) of the United States of America

NOAA attachment will provide WMO fellows with hands-on experience and training in operational weather and climate services at the National Weather Service of NOAA. This NOAA-WMO programme is a part of the US contribution to the WMO-VCP and we welcome applications from strong candidates who meet the following specific conditions for each desk you wish to apply:

African Desk

1. From NMHSs of the WMO Region I
2. Nominated by the country's Permanent Representative with WMO.
3. Available for four months of uninterrupted training.
4. Fluent in English
5. At least a bachelor's degree in meteorology. Alternatively, a bachelor's degree or equivalent in any of the natural science / engineering fields plus at least one year of graduate studies in meteorology
6. At least 3 years of professional experience in operational weather forecasting or in climate monitoring and predications
7. Knowledge of basic UNIX commands and GrADS (the Grid Analysis and Display System) desired but not required

South American and Tropical Desk

1. From NMHSs of the WMO Region III and Region IV
2. Nominated by the country's Permanent Representative with the WMO
3. Available for four months of uninterrupted training
4. Working knowledge of English desirable, however, Spanish and Portuguese speakers are welcome to apply
5. Operational meteorologist and meteorological technicians as certified by their country
6. The NMHS agrees to fund the round trip airfare between their home country and Washington DC.

Pacific Desk

1. From NMHSs of the WMO Region V and the southeast portion of RA II.
2. Nominated by the country's Permanent Representative with the WMO.
3. Available for six weeks of uninterrupted training.
4. Fluent in English

Applicants who wish to apply and who meet all the requirements for a desk attachment should complete a WMO Fellowship Nomination Form signed by the Permanent Representative of the country with WMO, and send the original to WMO with copy to NOAA and NWS/IA for review.

Successful candidates will be issued a letter of invitation by NWS, in coordination with WMO, at least two months before the training event starts so that they have enough time to arrange the US Visa. Any payments in conjunction with the fellowship will not be authorized until the visa is granted and received.

NOAA will assist fellows in finding accommodations in the US.

WORLD METEOROLOGICAL
ORGANIZATION

FELLOWSHIP NOMINATION FORM

REQUEST FOR A WMO FELLOWSHIP

Issued by the Permanent Representative of the nominating Member with WMO

(Instructions for the completion and submission of this form are given under Section VII)

I. PROPOSAL, REQUIREMENTS and OBLIGATIONS (to be completed by the Permanent Representative)

1. The Government of _____ (Recipient WMO Member country)
nominates _____ (Name of the candidate; last, first and other names; please underline the family name by which the candidate will be referred to)
for a fellowship _____ (Proposed host country, and duration - in months^(#))
to study _____ (Field(s) of study requested):

2. The Permanent Representative of the Recipient WMO Member certifies that (please tick):

- (a) ☐ The information provided by the nominee is complete and correct;
(b) ☐ The nominee satisfies the entry requirements in terms of academic qualifications and experience for the programme of study;
(c) ☐ The nominee has adequate knowledge, appropriately tested, of a language that can be used for working purposes in the proposed host country;
(d) ☐ The nominee has the commitment, adaptability and capability to successfully complete the proposed programme of study;
(e) ☐ The criteria for the award of a WMO fellowship approved by the WMO Executive Council are satisfied;
(f) ☐ A plan will be put in place to ensure that his/her Service gains the planned benefits of the fellowship;
(g) ☐ The required post-fellowship reports will be provided;
(h) ☐ The absence of the nominee during his/her studies abroad will not have any adverse effects on his/her status, seniority, salary, pension and similar rights.

II. EXPECTED BENEFITS (to be completed by the Permanent Representative)

1. In what way will your Service benefit from the fellowship? (Identify the way in which the fellowship fits in with the human resources development plan of your service and its strategic aims, and the specific benefits coming from the fellowship).

2. How will the fellow be employed at the end of the fellowship? (Be as specific as possible in terms of the title of the post and the associated responsibilities).

3. How will the expertise gained from the fellowship be spread within your Service? (Identify ways in which others within your service will benefit from the fellowship).

Place and date:

Signature of the Permanent Representative

(Specimen signature of the PR should be available in WMO.
For signature on behalf of PR, "delegation of authority to sign" should also be available in WMO).

(#) The WMO reserves the right to propose an alternative host country if in its judgment the desired facilities are equally or more satisfactory in such a country; or if the desired facilities are unavailable in the country proposed by the candidate. The length of time required for study may also be adjusted by WMO in accordance with its own judgment and the available budget.

III. CANDIDATE INFORMATION (to be completed by the candidate)																				
Family name (use capital letters): First and other name: Mailing address: Home address: Telephone: Fax: Email address: Have you any *near relatives employed in WMO, another public international organization or in the Meteorological Service of your own country? Yes No If the answer is "Yes", please provide the following information: Name: _____ Relationship: _____ International Organization: _____ Meteorological Service: _____						Country of birth: Date of birth: Nationality: Marital status: Gender (M/F): Name and address of person to be notified in case of emergency:

Education (start with last attended institution and work backwards)																				
Name of institution and place of study				Years of study: from – to			Major fields of study			Degrees/Diplomas										
Employment record (Give complete information, details of your duties and responsibilities for each post you have occupied).																				
1. Present or most recent post: Years of service: from to Title of your post: Name and address of employer: Name of supervisor:							Description of your work, including responsibility:													
2. Previous post: Years of service: from to Title of your post: Name and address of employer: Name of supervisor:							Description of your work, including responsibility:													

35

IV. PROPOSED STUDY PROGRAMME (to be completed by the candidate)

1. What is the training need for which a programme of study is required?

Indicate why your programme of study is required to meet the training needs of you and your Service.

2. What are the key components of a training programme required to satisfy the training need?

Give as much detail as possible about the main components of the required training programme

3. What training programme would meet your requirements in a cost-effective way?

Indicate the country of study, institution, and content and length of the training programme. Give two options in order of preference.

4. What are the entry requirements for the proposed programme of study?

Specify the entry requirements and explain the extent to which you satisfy them.

5. What practical uses you will make of this study on your return home?

Indicate how you and your Service will benefit from the programme of study.

6. What fellowships or scholarships have you been awarded? Indicate any fellowships or scholarships that you have held in the past or hold at present, and any for which you are presently a candidate.

7. What have you done to gain information about the training programmes available to meet your needs?

Indicate how you have gone about identifying the proposed training programme.

8. Any other matters you consider relevant (e.g. if you are awarded a fellowship, are there any periods when you cannot be absent from your home country).

V. CERTIFICATION (to be completed by the candidate)

I certify that my statements in answer to the foregoing questions are true, complete and correct to the best of my knowledge and belief. If selected as a WMO Fellow, I undertake to:

- (a) Conduct myself at all times in a manner compatible with my status as holder of the WMO Fellowship;
- (b) Spend full time during the period of the award on the study programme as directed by the agency in the country of study and by the WMO;
- (c) Refrain from engaging in political, commercial, or any other activities other than those covered by my work programme;
- (d) Submit reports in accordance with the arrangements made by the WMO;
- (e) Return to my home country at the end of the Fellowship.

Place and date:

Signature of the candidate

VI. RECOMMENDATIONS OF THE SELECTION COMMITTEE (To be completed by the Chairman of the Committee)

1. Comments on the education and qualifications of the candidate, and his experience (if any) in the subject to be studied:
2. Comments on the linguistics ability in the language of the course, age, personality and motivation of the candidate:
3. Comments on proposed country of study, preferred institution(s) in that country and duration of fellowship:
4. Comments on use to which Fellow's training will be put on his return home, in the context of national plans for human resources development:

Place and date:

Signature of the Chairman of the Committee:

Official position and address:

VII. INSTRUCTIONS on the COMPLETION and SUBMISSION of this FELLOWSHIP NOMINATION FORM

1. **This Fellowship Nomination Form (FNF) will be completed as follows:**
 - Sections I and II by the Permanent Representative of the nominating Member with WMO
 - Sections III, IV and V by the Candidate
 - Section VI by the Chairman of the Selection Committee
 - In case of requests for attendance at WMO training events of less than one-month duration another (simpler) form is to be used.
2. **Selection Committee**
 - This is a generic name for a body, which oversees, directly or indirectly, the human resources development planning for meteorology and hydrology.
 - In the absence of such body, the authority supervising the NMHS may designate a local Selection Committee to this effect.
3. **Submission of FNF:**
 - The Permanent Representative will forward by post the ORIGINAL of this FNF to the WMO, Geneva.
 - Advanced copies may be submitted to WMO by fax, in order to launch the FNF processing. However no implementation action will be taken until the signed ORIGINAL version of the FNF is received in WMO.
 - Specimen signature of the Permanent Representative and/or of the person authorized by the PR to sign on his behalf must be (made) available to WMO prior to the posting of the FNF.
4. **Additional documents required:**
 - Medical Clearance Certificate
 - Recent Chest X-Ray
 - Copies of relevant diplomas, certificates.
5. **Note:**
 - Following the receipt of FNF completed, WMO approaches relevant training institutions in order to tentatively identify cost-effective options for the delivery of the requested training.
 - Upon the receipt of replies from the concerned institutions, the FNF and the potential training offers, are submitted to the Fellowships Committee, which meets once every three months in order to screen every candidature versus the EC Criteria for the Award of WMO Fellowships. The Committee thoroughly examines the FNF' information, in particular the arguments related to the training needs of the Candidate in the context of the human resources development plans of his Service.
 - The Chairman of the Fellowships Committee submits all the candidature recommendations made by the Committee to the WMO Secretary-General, for his review and approval.
 - It is only after the approval by the Secretary General that will start the actual processing for any fellowship award. Accordingly, the time lapse from the FNF submission to the actual implementation of the fellowship may require 5-8 months.

Criteria for the Award of WMO Fellowships
(As approved by EC-LVIII, June 2006)

- (1) The aim of the WMO Fellowship Programme is to support the education and training of qualified and suitable candidates, particularly from developing countries. Applications from women are especially encouraged. Fellowships should benefit both the individual candidate and the candidate's institution, usually the National Meteorological and Hydrological Service (NMHS).
- (2) WMO may award both short-term (less than 6 months) and long-term fellowships, based on recommendations of the Fellowships Committee. The emphasis will be on the awarding of fellowships for continuing education and training in meteorology and hydrology rather than acquisition of basic education. Very short-term fellowships (less than one month) may also be awarded for specially tailored individual- and group-training programmes, in particular programmes on management of NMHSs and familiarization visits for senior NMHS personnel.
- (3) Candidates applying for a WMO fellowship must complete a Fellowship Nomination Form (FNF), which must be certified by the Permanent Representative (PR) of the recipient WMO Member. The PR will specify, amongst others, the expected benefit to the individual (e.g. to produce a qualified workforce), and the benefit to the nominating institution (e.g. to assist in the organizational development of the NMHS in the light of the changing needs of the services required to meet the evolving needs of users).
- (4) To be considered by the Fellowships Committee for a fellowship, *candidates must*:
 - (a) Be of sound health as confirmed by their completed medical certificates;
 - (b) Be proficient in the language of study;
 - (c) Possess the required qualification and/or relevant experience for the proposed course of study;
 - (d) Only apply for courses of study directly applicable to meteorology or hydrology. Newly appointed directors of NMHSs are also eligible for very short-term training programmes in the management of NMHSs and for familiarization visits of one-two weeks duration.
- (5) In awarding a fellowship, *priority will be given to candidates who*:
 - (a) Come from countries with the least developed NMHS as well as developing countries, countries with economies in transition and countries more vulnerable to natural disasters;
 - (b) Request only partial support (e.g. when a requesting country meets the travel costs and/or the host country waives tuition fees);
 - (c) Apply for courses at WMO-RTCs or other training institutions in their own Region;
 - (d) Apply for short-term fellowships or long-term fellowships not exceeding 18 months in duration; very long-term fellowships lasting more than 18 months may be granted in special circumstances acknowledged by the PR in the FNF, and confirmed by the WMO Regional Office;
 - (e) Are expected to continue to work in their country, preferably in their NMHS in a suitable post on completion of the fellowship;
 - (f) Not have been awarded a long-term WMO fellowship within the previous four years.
- (6) In awarding a fellowship, *account will be taken of*:
 - (a) Whether the candidate comes from a country that has not recently benefited from a WMO fellowship;
 - (b) The need for regional proportional balance;
 - (c) Whether the candidate has been awarded a fellowship in the past;
 - (d) The extent to which the course of study is relevant to the national development objectives and the human resources development priorities identified by the PR in the FNF;
 - (e) The need to practice equal opportunity policies. (See Resolution 33 (Cg-XIV) – Equal opportunities for participation of women in meteorology and hydrology);
 - (f) Whether the Permanent Representative from the candidates' country has provided WMO with the required report from any previous fellowship.
