GENEVA, 10 March 2014

Annexes: 2 (available in English only)

Subject: International Training Course on Tropical Cyclone Forecast, from 15 to 26 May 2014, Nanjing, China

Action required: For information and appropriate action, as necessary

Dear Sir/Madam,

I have pleasure to inform you that the People's Republic of China will host an International Training Course on Tropical Cyclone Forecast, from 15 to 26 May 2014 at the WMO Regional Training Centre (RTC) in Nanjing, China.

The course is designed for meteorologists mainly from developing countries who are working in the field of weather forecasting and other related fields. The course will be conducted in English, and it will mainly cover the basic theory and principles of tropical cyclones. This will be helpful to improve participants' ability in carrying out the operation of forecasting of high-impact weather associated with tropical cyclones, scientific research as well as management.

The Chinese Government will waive the tuition fee, and can provide local support for the accepted participants, upon request. For detailed information, please find attached the Enrolment Information and the Application Form.

The nominated candidates are requested to complete the attached Application Form, which should be endorsed by the Permanent Representative of their respective countries, and returned **directly to the RTC in Nanjing, China** at the address provided on the Application Form **not later than 6 April 2014**.

Yours faithfully,

(E. Manaenkova)
for the Secretary-General

To: Permanent Representatives (or Directors of Meteorological or Hydrometeorological Services) of Members of WMO (PR-6755)

cc: Hydrological Advisers to Permanent Representatives

ENROLMENT INFORMATION

International Training Course on Tropical Cyclone Forecast

The International Training Course on Tropical Cyclone Forecast is organized by the WMO Regional Training Centre (RTC) Nanjing, sponsored by the China Meteorological Administration (CMA).

1. Objectives

Through theoretical study and practice, participants will be able to master the basic theory and principles of tropical cyclone. This will be helpful to improve participants' ability in carrying out the operation of forecasting of high-impact weather associated with tropical cyclones, scientific research as well as management.

2. Date and Venue

15-26 May 2014, WMO Regional Training Centre (RTC) Nanjing China.

3. Course Contents

The training course will mainly cover lectures on tropical cyclone (TC) structure, tropical cyclogenesis, intensity change of tropical cyclone, TC motion, tropical cyclone and climate change, track and structure forecasts of tropical cyclones, seasonal forecasts of tropical cyclone activity, application of satellite data and radar data in early warning of TC, societal and economic impacts of tropical cyclones and disaster mitigation, and so on.

4. Training Format

Lectures, practical sessions, seminar on special topics, study tour, discussion, presentation, etc.

5. Language of Instruction

The course will be conducted in English.

6. Targeted Trainees

Meteorologists who are working in the field of weather forecasting and other related fields from developing countries.

7. Participant's Qualifications for Admission

Participants are required:

- a) To be specialized in weather forecasting with a minimum of one years professional experience;
- b) To be in good physical health with no infectious diseases. Physically fit to fulfill all course activities; candidates with limited physical mobility will not be accepted;
- c) To be proficient in English;
- d) To prepare a report on weather forecasting of the participants' service and a brief introduction of the participant's professional experiences for the purpose of exchanges;
- e) Not to bring family members to the training course in principle; if bringing a family member,

- the participant has to pay the extra expenses;
- f) To observe all the laws, rules and regulations of People's Republic of China and respect the Chinese customs during the training period.

8. Application and Admission

- 1) The applicants must be meteorologists who are working in the field of weather forecasting from Meteorological and Hydrological Services of developing countries. The nominated candidates are requested to submit the Application Forms together with evidence of English proficiency to the WMO RTC Nanjing China for examination and endorsement;
- 2) Admission Notices will be issued to the accepted participants by e-mail by the RTC Nanjing. With the Admission Notices, the participants are requested to go through all the necessary formalities for entering China and bring all the documents (Admission Notices, Application Forms) to the WMO RTC Nanjing China on the registration date of 14 May 2014;
- 3) **Only accepted applicants** that receive the Admission Notices endorsed by the WMO RTC Nanjing China can participate in the training course.

9. Training Expenses

- 1) Tuition fee is free for all the accepted participants that receive the endorsed Admission Notices by the WMO RTC Nanjing China;
- 2) Due to limited funds, the WMO RTC Nanjing China can provide local support such as accommodation, meals, and pocket money (50 Yuan RMB per day) etc. for 20 participants only. Normally one applicant from each developing country or two applicants from each Least Developed Country are endorsed by the WMO RTC Nanjing China for the local support;
- 3) Other accepted applicants or their respective governments need cover their accommodation (50 USD per day per person) and meals (20 USD per day per person) during the training period;
- 4) The international travel costs including round trip tickets, transit fares and subsistence allowance during the travel are to be covered by the participants or their employers;
- 5) The expenses of visa, medical care, insurances and domestic salaries for the participants should be borne by the participants' employers.

10. Insurance

The organizer of the Training Course on Tropical Cyclone Forecast does not hold any responsibility for such risks as loss of life, accidents, illness, and loss of property incurred during the whole period of participation in the training course.
