Our ref.: WDS/DRR/DRR-Roadmap

GENEVA, 13 June 2016

Annex: 1

Subject: WMO Disaster Risk Reduction Roadmap

Action required: Review and comment by **2 September 2016**

Dear Sir/Madam,

In response to the request by the Seventeenth World Meteorological Congress (Cg-17) for the Secretariat to produce a final draft of the WMO Disaster Risk Reduction (DRR) Roadmap that is in alignment with the Sendai Framework for DRR 2015–2030, I am pleased to inform you that the final draft of the Roadmap is available for your review and feedback at the following link: <http://www.wmo.int/pages/prog/drr/documents/roadmap/index.html>.

This draft will be discussed in EC-68. Due to the strategic nature of the Roadmap and its time coverage until 2030, the development of a phased Implementation Plan is being proposed. At the present time this draft is being translated into all official WMO languages, which will be posted as ready.

I would appreciate your feedback on the document using the feedback form provided at the link above, specifically your views on the Objectives of the Roadmap (Section 1.4), the scope of the Thematic Areas (Section 3.1), cross-cutting Activity Pillars (Section 3.2), Linkages (Section 3.3), Activities (Section 4) and Implementation Arrangements (Section 5), as well as ideas for the Roadmap Implementation Plan (Section 5.3), as soon as possible but not later than **2 September 2016**. The Secretariat will then incorporate all comments received and finalize this first edition of the WMO DRR Roadmap.

Yours faithfully,

(E. Manaenkova)  
for the Secretary-General

To: Permanent Representatives (or Directors of Meteorological or Hydrometeorological Services) of Members of WMO (PR-6906)  
Presidents of technical commissions

cc: Hydrological Advisers to Permanent Representatives
