Our ref.: 42844/2017/RES/ARE/YSA-2018

8 December 2017

Annex: 1

Subject: Reminder - WMO Research Awards for Young Scientists 2018

Action required: Submission of nominations by **31 January 2018**

Dear Sir/Madam,

I am pleased to refer to my letter dated 21 September 2017 (ref.: 33505/RES/ARE/YSA-2018) on the above-mentioned subject, and to remind you that the World Meteorological Congress, at its seventeenth session, held in May/June 2015, encouraged its Members to continue to support the WMO Research Awards for Young Scientist through submission of papers related to atmospheric science and hydrology. It also approved the guidelines to be followed for the presentation of the award (see annex).

Therefore, I have pleasure in inviting you again to submit the nomination of candidates for the 2018 award. Please kindly note that the deadline of submission of nominations has been postponed until **31 January 2018** in order to give you more time to submit candidatures, keeping in mind that the number of nominations submitted by each Permanent Representative should not exceed two. These nominations should then be sent together with four hard copies of the paper and short curriculum vitae of the candidate (the candidate's date of birth is to be mentioned in the curriculum vitae). It is also requested to send the electronic version of the paper via e-mail to are_res@wmo.int, with a copy to Ms Nathalie Avondo-Bedone (navondo-bedone@wmo.int).

Should the nominations of your country's candidate(s) already be submitted, please kindly disregard this reminder.

Yours faithfully,

(E. Manaenkova)
for the Secretary-General

To: Permanent Representatives (or Directors of Meteorological or Hydrometeorological Services) of Members of WMO

cc: Hydrological Advisers to Permanent Representatives
Directors of Regional Offices and Sub-regional Offices
Members of the Executive Council Selection Committee

Ref.: 42844/2017-13 RES-ARE

GUIDELINES TO BE USED FOR THE GRANTING OF WMO RESEARCH AWARDS FOR YOUNG SCIENTISTS

Ref.: 42844/2017-1.3 RES-ARE

1. PURPOSE

The purpose of the WMO Research Awards is to encourage young scientists, preferably in developing countries, working in the fields of meteorology and hydrology.

2. CRITERIA FOR GRANTING AWARDS

- (a) Each award shall be made for an outstanding scientific research paper;
- (b) Awards shall be made to young scientists not exceeding the age of 35 at the time of nomination;
- (c) Only one paper should be submitted for each candidate;
- (d) Workers in all fields of meteorology and hydrology will be eligible, but members of the WMO Executive Council may not submit papers authored by themselves for the award;
- (e) Awards to nominees from a region may be divided. The award may also be divided between two co-authors provided that both meet the other criteria for the granting of the award;
- (f) Only papers which have been published in scientific journals will normally be eligible for consideration, however, a summary of a successfully defended PhD thesis would also be acceptable;
- (g) Papers published in languages other than the working languages of WMO will be eligible for consideration if accompanied by full translations in one of the working languages and an extended summary;
- (h) Only papers published during the four-year period immediately preceding the year in which the nomination is made will be eligible for consideration;
- (i) Papers that have previously won international prizes will not be eligible.

3. METHOD OF SUBMISSION OF CANDIDATURES

- (a) All Permanent Representatives of Members of a WMO regional association will be invited to submit nominations during a specified period in accordance with a schedule established by the Secretary-General. Preference, however, should be given to the nomination of young scientists coming from developing countries who have prepared their work there;
- (b) Nominations, together with four copies of papers in a WMO working language (original or translation) and an adequate summary, should be submitted by the Permanent Representatives to the president of the regional association concerned through the WMO Secretariat before a specified time limit;
- (c) The number of nominations submitted by each Permanent Representative should not exceed two.

4. METHOD OF SELECTION

- (a) Each president of a regional association should nominate three persons as assessors who should be distinguished scientists normally resident within the Region and who will not be themselves eligible for the awards. The Secretary-General should obtain a list of regional assessors to facilitate this procedure;
- (b) Each assessor should allot a mark to each paper which should be a digit in the range 0 (lowest) to 5 (highest) and submit these evaluations to the president of the regional association. The evaluation should be based on the following: significance of topic, novelty of ideas and methods, value of results and quality of presentation, with equal weight being assigned to each of these sectors. On the basis of the expert's marks, the president of the regional association will forward to the Secretary-General the name of the candidate receiving the highest aggregate marks (if two candidates tie for top place both nominations may be submitted);
- (c) The final selection of the award winner or winners from among the candidates from all regions will be made by a Selection Committee of not more than four members of the Executive Council, specially constituted for this purpose at its session immediately following Congress;
- (d) The nominations submitted by each region, together with the original papers, will be provided to each member of the Executive Council Selection Committee by the Secretary-General at least two months before a session of the Executive Council;
- (e) The Executive Council Selection Committee may not recommend an award if none of the papers submitted is of sufficiently high standard.

5. NATURE OF AWARDS

The award will consist of a citation and an amount of US\$ 1 000.

6. AWARDING CEREMONY

The arrangements for the presentation of the award will depend in each case upon the prevailing circumstances and will be decided by consultation between the Permanent Representative who submitted the nomination and the Secretary-General.
