Our ref.: 15857/2018/ETR/MISC

28 June 2018

**Subject:** Enhancing the delivery of the WMO education and training activities on leadership and management development for National Meteorological and Hydrological Services

**Action required:** Provision of information to the Secretariat regarding education and training related to leadership and management development, and associated documentation, in your meteorological and hydrological service(s)

Dear Sir/Madam,

WMO has been promoting leadership and management development in National Meteorological and Hydrological Services. Recent activities in this area have increased through dedication of special sessions to management issues at or on the margins of WMO meetings such as sessions of regional associations and technical commissions, provision of fellowships and training sponsorships to nominated experts, familiarization visits to the Secretariat of newly appointed Permanent Representatives of Members with WMO and development of training resources for use by meteorological and hydrological training centres and institutions.

To continue and expand these efforts, we are seeking information from you on relevant activities being carried out in, or through, your meteorological and hydrological service(s).

Consequently, I would be pleased if you could send any relevant information on leadership and management development activities in your meteorological and hydrological service(s), in line with the areas identified below, to the Director of Educational and Training Office of WMO, via [tra@wmo.int](mailto:tra@wmo.int):

- a) List of available education and training initiatives on leadership and management development in your service;
- b) Available international education and training scholarships and fellowships opportunities on leadership and management for meteorological and hydrological services;
- c) Institutions dealing with such initiatives, with special reference to meteorological and hydrological services;
- d) Existing specialized curriculum on leadership and management for meteorologists and hydrologists;
- e) Indication of your interest to render specific bilateral and/or multilateral support to leadership and management training for meteorologists and hydrologists; and
- f) Any other relevant information.

To: Permanent Representatives (or Directors of Meteorological or Hydrometeorological Services) of Members of WMO

cc: Hydrological Advisers to Permanent Representatives

In view of the need to analyze the information for consideration by the Eighteenth World Meteorological Congress (Cg-18), your response to this request by **28 September 2018** will be highly appreciated.

I would like to express my appreciation for your continued support in promoting the Programmes and activities of WMO.

Yours faithfully,

A handwritten signature in black ink, appearing to be 'Zhang' with a stylized flourish extending to the right.

(W. Zhang)  
for the Secretary-General
