Subject: Report of the World Meteorological Organization (WMO) Second Quarter 2021 Financial Situation

Dear Sir/Madam,

In [Resolution 14 \(EC-72\)](#) - Financial Statements of the World Meteorological Organization for the year 2019, the Executive Council requested the Secretary-General to “develop relevant quarterly financial reporting to Members, including information on expenditures”. The [attached document](#), the Second Quarter 2021 Report on the Financial Situation of WMO responds to this request. The report contains an analysis of the status of Members’ contributions as at 30 June 2021 and analysis of the expenditures against the Regular Budget during the first half of 2021.

We welcome your comments on this initiative and all questions can be directed to Mr Wenjian Zhang (wzhang@wmo.int), Assistant Secretary-General, and copy to Mr Brian Cover (bcover@wmo.int), Chief, Finance Division.

Further reporting will be done on a quarterly basis to update Members on the financial situation of WMO throughout the year.

Yours faithfully,

Prof. Petteri Taalas
Secretary-General

To: Permanent Representatives of Members with WMO

cc: Hydrological Advisers

6 September 2021

Second Quarter 2021 Report on the Financial Situation of WMO

This document presents updated information on the financial situation of the World Meteorological Organization (WMO) as of 30 June 2021, with particular emphasis on the status of contributions to the Regular Budget as well as the status of expenditures against the Regular Budget through the second quarter of 2021.

During 2020, the payment pattern of assessed contributions was unusual, with a high level of arrears at the beginning of the year and an overall low level of payments in the second and third quarters of 2020. However, in the fourth quarter of 2020, there were significant payments of assessed contributions; therefore, 2021 began with a level of outstanding assessed contributions lower than in 2020. During the first half of 2021, the improved payment pattern of assessed contributions continued with 53% of the 2021 assessment and 48% of the total arrears being paid by the end of June 2021. As a result, the cash position of the General Fund is in a strong position at the end of the second quarter of 2021, approximately CHF 16 million higher than at the end of the second quarter of 2020 and approximately CHF 14 million higher than at the end of 2020. It is expected that the continued focus on payment of assessed contributions by Members will continue throughout 2021 to ensure the solvent and efficient operations of WMO and Members are urged by the Executive Council to continue to make every effort to ensure payments of their contributions in full and on-time.

At end of 30 June 2021 the level of actual expenditures and obligations represents 40.1% of the total 2021 budget. The level of expenditure is explained by the ongoing impact of the COVID-19 pandemic in the travel component of WMO expenditures, the higher than normal level of staff vacancies that are undergoing recruitment, as well as the transitional period the Organization requires to adapt to the current situation and plan for the new normal. In addition, the WMO area of activities are not quarterly aligned and while traditionally the first months of the year are more focused on planning, a higher level of implementation of meetings, fellowship and training activities is expected in the remainder of 2021.

A. General Fund Financial Situation

Under Financial Regulation 8.4, Member States were obliged to pay 2021 assessed contributions to the Regular Budget and the advances to the Working Capital Fund on 1 January 2021. Members that have not done so are urged to ensure payment of their 2021 assessed contributions to the Regular Budget, as well as any assessed contributions in arrears and outstanding advances to the Working Capital Fund as soon as possible. The timely payment of assessed contributions is critical to the sound financial basis necessary for the optimum implementation of planned activities to deliver the approved Strategic Plan and the governance reform.

Status of Assessed Contributions

In accordance with Resolution 13 (EC-71) - Budget for the Biennium 2020–2021, and Financial Regulation 8.2, the total assessed contributions for 2021 were equal to one half of the budget of CHF 135.8 million that was approved by the Executive Council for the 2020–2021 biennium. WMO Members were, therefore, assessed CHF 67.9 million in aggregate for 2021. As at 30 June 2021, WMO Members had made payments against the 2021 assessment totaling CHF 26.2 million, which represents a rate of collection for 2021 of 53%, a 3% increase in comparison with the collection rate of 50% as at 30 June 2020.

In addition to the 2021 assessed contribution, WMO began 2021 with outstanding assessed contributions from 2020 and prior years amounting to CHF 25.2 million, which was 3.2 million lower than at the beginning of 2020. Members made payments of CHF 12.2 million in the first two quarters of 2021 against 2020 and prior year assessments, bringing the balance of the arrears at 30 June 2021 to CHF 13.0 million, which is CHF 2.2 million lower than the amount of arrears of CHF 15.2 million outstanding at 30 June 2020.

The total outstanding balance of assessed contributions at 30 June 2021 was CHF 45.2 million, a decrease in the outstanding assessed contributions of CHF 3.8 million as compared to 30 June 2020. Despite this improvement, the amount of outstanding assessed contributions at 30 June 2021 represents 67% of the total 2021 Regular Budget assessment. The delays in the payment of assessed contributions by Members puts significant pressure on the General Fund cash resources to meet its financial obligations.

Table 1. Comparison of Collection of Assessed Contributions as at 30 June 2021

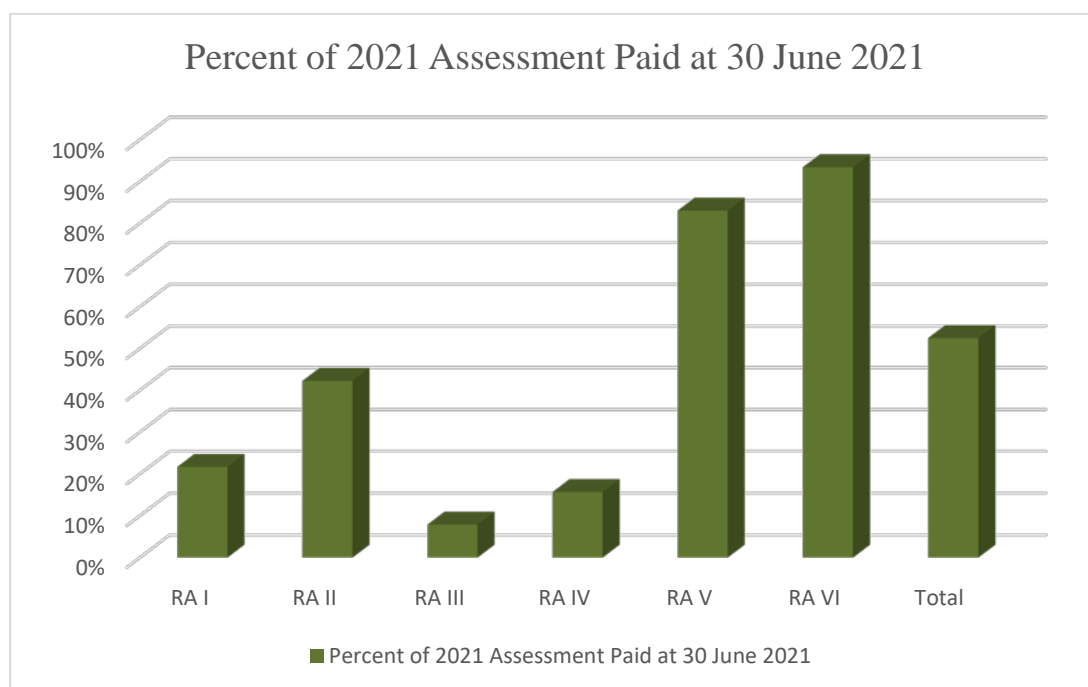

<i>(in thousands of Swiss francs)</i>								
	2021	%	2020	%	2019	%	2018

Regional Analysis of Outstanding Assessments

The following graph shows the percentage of the total assessment for each WMO Region that had been paid by the Members of each WMO Region as at 30 June 2021.

The following graph shows the distribution of the 2021 assessment and the amounts of such assessment paid by 30 June 2021, based upon the grouping of WMO Members by region.

The following graph shows the distribution of the amounts of arrears at 1 January 2021 and the amounts of payments against such arrears by 30 June 2021, based upon the grouping of WMO Members by region.

Ref.: 19477/2021-1.6 GS

Status of Voting Rights

Any Member in arrears for more than two consecutive years is subject to the provisions of Resolution 37 (Cg-XI) -Suspension of Members for failure to meet financial obligations and are deprived of its voting and other rights. Historically approximately 15% of WMO Members have voting rights suspended pursuant to this Resolution. As at 30 June 2021, the number of Members without voting rights at WMO was as follows:

Table 3. Members having lost voting rights as at 30 June 2021

	2021	2020	2019	2018
Members having lost voting rights	35	30	31	32

In accordance with Financial Regulation 8.8, special arrangements as established by Congress concerning the repayment of long-outstanding contributions may be concluded with any Member in arrears for more than four years on the date of entry into force of such arrangements. Currently three Members have concluded and complied with such a repayment agreement permitting waiver of Resolution 37 (Cg-XI) and permitting voting rights.

Detailed Tables

The annexed report "Statement Showing Status of Contributions as at 30 June 2021" provides details by Member regarding amounts due at the beginning of 2021, 2021 assessments, payments received during 2021, outstanding amounts for 2021 and prior years, and outstanding advances to the Working Capital Fund.

Liquidity Position of the General Fund

The table below shows the actual cash position for each month of the first half of 2021, and for each month of 2020 and 2019. As can be seen from the graph, the total cash balance of the General Fund plus the Working Capital Fund at 30 June 2021 was CHF 34.1 million. This is comprised of CHF 27.5 million in the General Fund and CHF 6.6 million in the Working Capital Fund.

The increase in the cash balance during the first half of 2021, from CHF 22.1 million at 31 December 2020 to CHF 34.1 million at 30 June 2021, is due to the receipt of a significant amount of assessed contributions during the first half of 2021 in conjunction with a moderate level of expenditures during the year to date.

The CHF 27.5 million of General Fund cash at 30 June 2021 is sufficient to meet the operational needs of the General Fund for approximately five months while the Working Capital Fund would, if necessary, be available to provide slightly more than one additional month of operational liquidity.

Through the middle of August 2021, Members had paid an additional CHF 6.7 million of 2021 and prior year outstanding assessed contributions in the third calendar quarter of 2021. Based upon the assessed contributions already received in the third quarter of 2021, expected additional receipts for the remainder of the quarter, and expected disbursements for the quarter, the forecast cash balance of the General Fund, excluding the Working Capital Fund, at the end of the third quarter of 2021 is approximately CHF 26 million. This forecast is highly dependent upon Members making payment of their assessed contributions.

B. Regular Budget Expenditures through 30 June 2021

Table 4 below shows the 2021 Regular Budget by object of expenditure, the expenditures incurred through 30 June 2021, and the percentage of the Regular Budget the expenditures represent. The expenditure amounts include both actual expenditures and obligated amounts (in thousands of Swiss Franc), except for staff costs which represent only the actual amounts recognized through 30 June 2021.

Table 4. Budget and Expenditure by Object of Expenditure at 30 June 2021

Object of Expenditure	2021 Budget	Expenditures through 30 June 2021	As a % of budget
(a) Staff costs	48 395.2	19 885.9	41.1%
(b) Short-Term Staff and Consultants	3 110.9	2 210.9	71.1%
(c) Travel	5 595.0	104.1	1.9%
(d) Fellowships and Training	1 177.2	60.1	5.1%
(e) Grants and Financial Contributions	2 058.4	664.0	32.3%
(f) Contractual and Operating Expenses	6 365.2	4 383.0	68.9%
(h) HQ Building Loan Repayment	1 477.3	-	0.0%
TOTAL	68 179.2	27 308.0	40.1%

Below is a summary analysis for each of the object of expenditure:

Staff costs: Staff costs through the end of the second quarter of 2021 represent 41.1% of the budget for this line item. Staff costs have been impacted by a higher than normal level of staff vacancies, many of which are currently under recruitment. It is expected that, due to the high level of vacancies in the first half of the year, the staff costs for 2021 are expected to be approximately CHF 4.5 million below the originally budget level.

Short-Term Staff and Consultants: The 71.1% rate of implementation represents the additional recruitment of short-term staff and consultants for specific activities and to compensate short-term staffing needs while staff recruitments are being performed.

Travel: The COVID-19 pandemic is having a continuing impact with respect to the reduction of travel and face-to-face meetings. This is the primary driver for the significant under-expenditure of this object of expenditure. This situation is already foreseen by the Secretariat and mitigation measures such as the implementation of activities via virtual or hybrid meetings and additional use of implementing partners and consultants, are already in place to ensure the implementation of key activities of the Organization. Some limited increases are envisioned in the coming months, although this continues to be dependent upon the evolution of the current pandemic.

Fellowships and Training: A minor increase is observed in both fellowship and training activities as compared to the first quarter. Some additional increase is expected in the third quarters as training activities are initiated and in line with the educational calendar periods.

Grants and Financial Contributions: Many activities implemented through implementing partners are planned and coordinated during the beginning of the year, with significant implementation occurring in the following quarters. As such, the implementation rate of 32.3% represents an increase as compared to the first quarter and is expected to continue increasing during the remainder of 2021.

Contractual and Operating Expenses: Expenditures for contractual and operating expenditures are at 68.9% of the full year budget as at 30 June 2021. This high level of implementation through the second quarter is due to two factors: (i) the reservation of funds at the beginning of the year related to certain annual contracts for items such as the Implementation Coordination Team (ICT) and building management related services and (ii) increased expenditures related to the cost of virtual/ hybrid meetings and outsourcing costs. These costs are expected to stabilize throughout the year.

HQ Building Loan Repayment: The repayment of the building loan for the WMO Headquarters building is usually made in the fourth quarter of each year. The funds are reserved for this payment in the third quarter of the year.

Other general considerations

1. *Impact of the COVID-19 pandemic*

The COVID-19 pandemic has continued to significantly reduce the volume of in-person, face-to-face meetings and other activities that require travel expenditures. As a result, the significant reduction in the categories of expenditure related to travel, including for meetings that could not be held virtually has continued from 2020 into 2021. These reductions have continued to be partially offset by additional contractual expenses which support the facilitation of online meetings, including through increased interpretation. In addition, the category of fellowships and training experienced a reduced level of expenditures due to continued low levels of activity at educational institutions and reduced opportunities for face-to-face training. The fellowship and training items of expenditure are expected to increase spending during the remainder of the year.

2. *Utilization of 2020 underspend*

The unspent balance of CHF 7.6 million 2020 is planned to be consumed in 2021 primarily through critical infrastructure investments as approved by EC-73. These investments, preparations for which have begun at the end of the first quarter of 2021, include addressing critical infrastructure needs in the WMO headquarters building to address matters such as the greening of WMO, ensuring duty of care for the entire WMO community, protecting and preserving the WMO headquarters building and ensuring that the WMO headquarters building is suitable for the next 20 years. Additional investments that have begun in 2021 include improvements to the IT infrastructure in regional offices to facilitate additional coordination of regional activities and initial investment in the core administrative systems to continue improving the efficiency and effectiveness of the administrative processes within WMO.

Table 5 below shows the 2021 budget and expenditures through 30 June 2021 by long-term goal (LTG) and Budget Part (in thousands of Swiss francs).

Table 5. Budget and Expenditure by Budget Part at 30 June 2021

Appropriation Parts	2021 Budget	Expenditures through 30 June 2021	As a % of budget
Part I. LTG 1. Better serve societal needs	16 192.7	6 251.9	38.6%
Part II. LTG 2. Enhance Earth system observations and predictions	11 916.0	4 632.2	38.9%
Part III. LTG 3. Advance targeted research	6 449.8	2 840.3	44.0%
Part IV. LTG 4. Close the capacity gap	13 528.3	5 307.5	39.2%
Part V. LTG 5 Strategic realignment of WMO structure and programmes	775.8	230.2	29.7%
Part VI. Policy-Making Organs, Executive Management and Oversight	9 238.2	3 890.0	42.1%
Part VII. Language Services	10 078.4	4 155.9	41.2%
Total	68 179.2	27 308.0	40.1%

As can be seen from Table 5, a similar level of implementation is maintained across all the budget parts at the overall rate of 40.1% that represents an 9.7% delay over a standardized 50% of implementation for the first half of the year. This quarterly measure should be read carefully as increases in expenditure are expected in the second half of 2021 upon the completion of recruitment processes and the implementation of WMO activities that are planned for the second half of the calendar year.
