7 April 2022

Subject: Energy sector survey prepared by the WMO Study Group on Integrated Energy Services (SG-ENE)

Action required: Fill in and submit the WMO Energy Survey by **30 April 2022**

Dear Sir/Madam,

I am pleased to inform you that the World Meteorological Organization (WMO) Study Group on Integrated Energy Services (**SG-ENE**) has elaborated the first WMO Energy Survey to collect valuable data from your institutions. You are kindly invited to fill in and submit the [WMO Energy Survey](#) no later than **30 April 2022**.

This survey is designed to analyse the status of National Meteorological and Hydrological Services (NMHSs) in terms of weather, water, and climate services for the national energy sector including generation, distribution, resilient infrastructure and demand. The outcomes will serve as a diagnosis for WMO to better understand the needs and requirements of Members to support national energy strategic plans and implementation, and to assess how best to support the NMHSs to develop and strengthen their services for energy security. More specifically, the results will be used both for the 2022 report on State of Climate Services, the theme of which is energy and to populate the country profiles of the WMO SG-ENE Energy Portal, which is being developed.

For any further information on the survey or clarification on any question, please contact Ms Roberta Boscolo (rboscolo@wmo.int) and Mr Hamid Bastani (hbastani@wmo.int).

Thank you for your participation and for your support to WMO and its activities.

Yours faithfully,

Prof. Petteri Taalas
Secretary-General

To: Permanent Representatives of Members with WMO
