7 June 2022

Subject: Second Announcement for the 2022 WMO Technical Conference on Meteorological and Environmental Instruments and Methods of Observation (TECO 2022)

Action required:

- (1) To take the note of the extended deadline for the abstract submission, which is now **10 June 2022**, and to distribute the announcement to interested parties
- (2) To submit requests for financial assistance to the WMO Secretariat, as soon as possible, but no later than **15 July 2022**
- (3) To submit extended abstracts (camera-ready papers) to be included in the conference's proceedings at your earliest convenience, but no later than **17 September 2022**

Dear Sir/Madam,

I wish to refer to the World Meteorological Organization (WMO) circular letter ref. 03832/2022/I/WIGOS/ONM/MQC/TECO-2022 dated 1 March 2022, announcing the 2022 WMO Technical Conference on Meteorological and Environmental Instruments and Methods of Observation (TECO-2022) that will take place in Paris, France, at Paris Expo Porte de Versailles, Hall 7.1, from 10 to 13 October 2022, in a hybrid format, in conjunction with the Meteorological Technology World Expo organized by UKi Media & Events, from 11 to 13 October 2022.

I am pleased to inform you that the preparation of TECO-2022 is well underway and that the expressed interest for the event together with the number of already submitted abstracts indicates a very successful event. Furthermore, considering some uncertainties with travelling and attending the events that might have prevented potential TECO-2022 participants from preparing and submitting their abstracts on time, I wish to advise you that the abstract submission deadline has been extended until **10 June 2022**.

Those wishing to present an oral or poster presentation at TECO-2022, but who have not submitted their abstracts yet, are kindly requested to follow the instructions provided on the [conference website](#).

The provisional programme for TECO-2022 will be available by the end of June, on the same website. The lead authors of the abstracts accepted to be presented at the conference will be contacted directly with further instructions on how to present their work at the conference. The authors will be invited to submit their extended abstracts (camera-ready papers) to be included in the conference's proceedings as early as possible, but no later than **17 September 2022**.

To: Permanent Representatives of Members with WMO

cc: Hydrological Advisers  
Presidents and vice-presidents of technical commissions  
Presidents of regional associations  
Chair and vice-chair of the Research Board  
Executive Secretary, Association of Hydro-Meteorological Equipment Industry (HMEI)

Registration for TECO-2022 will open in due time and will be announced on the conference website, accordingly.

Limited financial support may be available for selected participants from lesser developed countries, who are presenting papers. I kindly urge you to consider meeting the cost of travel expenses, such as air ticket and/or per diem for the participant(s) of your respective service. Please note that requests for financial assistance can only be considered within the limits of available resources for those requests submitted by the relevant Permanent Representative of the participant and received at the WMO Secretariat before **15 July 2022**.

I look forward to the participation of your expert(s) at TECO-2022, an event offering a unique opportunity for the exchange of information on the latest developments in instrumentation, observing methods and systems, thus strengthening the WMO Integrated Global Observing System (WIGOS) measurement community.

I should be grateful if you would make this announcement widely known within your respective Service and beyond.

Yours faithfully,

A handwritten signature in dark ink, appearing to read 'Zhang', with a stylized, flowing script.

Dr Wenjian Zhang  
for the Secretary-General
