Asunto:

Curso internacional de formación sobre el "Marco Mundial para los Servicios

Climáticos", del 17 al 28 de abril de 2017, en Beijing, China

Finalidad:

Para información y para que se adopten las medidas pertinentes, según proceda

### Estimado señor/Estimada señora:

Me es grato informarle de que la República Popular China acogerá un curso internacional de formación sobre el "Marco Mundial para los Servicios Climáticos", del 17 al 28 de abril de 2017, en el Centro de Formación de la Administración Meteorológica de China, ubicado en Beijing y dependiente del Centro Regional de Formación de la Organización Meteorológica Mundial (OMM) en China.

La finalidad del Curso es que los participantes entiendan mejor el Marco Mundial para los Servicios Climáticos (MMSC) y, al mismo tiempo, presentarles el Marco para los Servicios Climáticos de China con el fin de suministrarles tecnologías y métodos operativos relacionados con los servicios climáticos, e incrementar su capacidad en lo que se refiere a esos servicios. El curso se impartirá en inglés. Para más información sobre el curso se adjunta un documento sobre la inscripción (anexo 1).

Se ruega a los candidatos interesados que cumplimenten el formulario de inscripción adjunto (anexo 2), que deberá aprobar el Representante Permanente del país respectivo ante la OMM, y lo envíen directamente al Centro Regional de Formación de la OMM, preferiblemente por correo electrónico, a la dirección intcmatc@cma.gov.cn, lo antes posible, y a más tardar el **14 de marzo de 2017**.

Le saluda atentamente.

(W. Zhang) por el Secretario General

A los Representantes Permanentes (o Directores de los Servicios Meteorológicos o Hidrometeorológicos) de los Miembros de la OMM

## INTERNATIONAL TRAINING COURSE ON GLOBAL FRAMEWORK FOR CLIMATE SERVICES (GFCS)

## 17 to 28 April 2017, Beijing, China

## **ENROLMENT INFORMATION**

The International Training Course on Global Framework for Climate Services (GFCS) is organized by China Meteorological Administration (CMA) Training Centre/WMO Regional Training Centre Beijing (RTC-Beijing) and National Climate Centre (NCC)/Beijing Climate Centre (BCC), sponsored by CMA.

#### **Courses Aim**

The course is aimed to enhance the trainees' understanding of the Global Framework for Climate Services (GFCS) and to introduce the China Framework for Climate Services (CFCS), to provide the trainees with related operational technologies and methods in relation to climate services, and to increase the trainees' ability about climate services.

## **Expected Learning Outcomes**

After the courses, participants will be able to:

- 1) Get a better understanding of the GFCS and CFCS;
- 2) Deliver the climate services related to agriculture and food security, disaster risk reduction, health and water resource areas;
- 3) Improve climate prediction capability including statistical downscaling method;
- 4) Use Forecast System on Dynamical and Analogy Skills (FODAS) to predict national and regional precipitation and temperature.

In addition, the participants have opportunities to attend the thirteenth session of the Forum on Regional Climate Monitoring, Assessment and Prediction for Asia (FOCRAII).

## **Target Audience**

This course is targeted at senior meteorologists and climate scientists engaged in climate operational work, and senior officials engaged in climate management who wish to better understand the climate service.

Applicants are required to work in the national meteorological and/or Hydrological Service (NMHS), especially for the developing countries.

#### **Course Content**

The course contents include:

- Introduction to the GFCS, including its priority areas (agriculture and food security, disaster risk reduction, energy, health and water resource) and its components (user interface platform, climate service information system, observations and monitoring, research, modelling and prediction, capacity development);
- 2) Blueprint of CFCS, focusing on climate service cases in China, such as disaster risk management on agriculture and water resource;
- 3) Case study of statistical downscaling method in climate prediction;
- 4) Forecast System on Dynamical and Analogy Skills (FODAS) with emphasis on basic climate information, climatic diagnosis, and climate model output interpretation;

- 5) China meteorological services and the development of related operational units, and relevant WMO Programmes;
- 6) Visits to CMA operational units;
- 7) Participants' forum about their respective climate service.

#### **Course Format**

The format includes lectures, practical session, group discussion, and study tour.

#### **Student Assessment**

- 1) An observation will be made by the training course organizer at RTC-Beijing and lectures for participants' attendance and performance at the lectures and other learning activities of the training course;
- 2) Each participant is required to make a presentation with PPT concerning climate services in their country;
- 3) Each participant is required to submit a conclusion report on the training, at least one page and no less than 800 words, to examine their understanding and acceptance of the knowledge transferred;
- 4) The instructors will assess participants' performance in practical sessions.

#### **Instructors**

Senior experts in relation to the climate services from WMO, CMA, Beijing Climate Centre, CMA Training Centre, etc.

## **Language Used**

The course will be conducted in **English**.

## **Participant Qualifications for Admission**

The applicants must:

- 1) Be senior meteorologists or senior officer who are working in National Meteorological and Hydrological Services of developing countries.
- Be engaged in climate operational work or management with a minimum of four year's professional experience;
- 3) Be proficient in English;
- 4) Prepare a report on climate operational work and climate services of the participants' work organizations and a brief introduction of the participant's professional experiences for the purpose of exchanges at the participants' forum;
- 5) Be in good physical health with no infectious diseases. Physically fit to fulfill all course activities:
- 6) Not bring family members to the training course; if bringing a family member, the participant has to pay extra expense;
- 7) Observe all the laws, rules and regulations of People's Republic of China and respect the Chinese customs during the training period.

### **Application and Selection Process**

- The nominated candidates are requested to submit the <u>Application Forms and Passport Copy (necessary)</u> together with evidence of English proficiency (if there is) to RTC-Beijing for selection and endorsement;
- 2) Application shall be submitted and reach RTC-Beijing no later than **14 March 2017** with a copy to WMO Secretariat;

- Admission Notices will be issued to the accepted participants by e-mail by the RTC-Beijing. With the Admission Notices, the participants are requested to go through all the necessary formalities for entering China and bring all the documents (Admission Notices, **Health Document**, and Application Forms) to RTC-Beijing;
- 4) **Only accepted applicants** that receive the Admission Notices and Invitation Letters endorsed by RTC-Beijing can participate in the training course;
- Normally one application from each developing country or two applications from each Least Developed Country are endorsed by the RTC-Beijing for the local support. Other accepted applications, or their respective governments, need to cover the cost of their accommodation and meals during the training period.

### Costs

- 1) Tuition is free for all the accepted participants that receive the endorsed Admission Notices by RTC-Beijing;
- 2) RTC-Beijing will provide local support to the accepted participant from developing countries, including accommodation, meals, and pocket money (50 Yuan RMB per day, 600 Yuan RMB in total);
- 3) The international travel costs including round trip tickets, transit fares and subsistence allowance during the travel are to be covered by the participants or their employers;
- 4) The expenses of visa, medical care, insurances and domestic salaries for the participants should be borne by the participants;
- 5) It should be taken into account when booking the flight tickets that the scholarship covers exclusively from **17 to 28 April 2017**. Any liability or expense out of this term shall be entirely at the expense of the participants;
- 6) The organizer of the Training Workshop on the GFCS does not hold any responsibility for such risks as loss of life, accidents, illness, and loss of property incurred during the whole period of participation in the training course.

## **Deadline for Application**

The application, with a copy of the passport, should be sent to RTC-Beijing with a copy to the WMO Secretariat no later than **14 March 2017**.
