GENÈVE, le 15 août 2013

Annexes: 2 (disponibles en anglais seulement)

Objet: Cours international de formation sur la prévision du climat à l'échelle régionale et le suivi des épisodes de sécheresse (Beijing, Chine, 15-25 octobre 2013)

Suite à donner: Pour information et mesures à prendre, le cas échéant

Madame, Monsieur,

J'ai le plaisir de vous informer que la République populaire de Chine accueillera un cours international de formation sur la prévision climatique régionale et le suivi des épisodes de sécheresse, du 15 au 25 octobre 2013, au Centre de formation de l'Administration météorologique chinoise (CMATC) de Beijing, qui est l'une des composantes du Centre régional de formation professionnelle (CRFP) de l'OMM en Chine.

Ce cours a pour but d'enrichir les connaissances des participants dans le domaine des prévisions climatiques à court terme et de la sécheresse. Il leur permettra également d'apprendre de nouvelles techniques de diagnostic et de détermination des causes des phénomènes climatiques extrêmes, principalement des épisodes de sécheresse.

Ce cours, qui se déroulera en anglais, est destiné aux météorologistes, en particulier issus de pays en développement, dont les activités d'exploitation ou de recherche portent sur l'analyse et la prévision du climat.

Les candidats retenus qui recevront le document intitulé *Admission Notice* (Avis d'admission) approuvé par le CRFP de Beijing seront exonérés de frais d'inscription. Le Gouvernement chinois apportera aux participants, sur demande, un soutien au niveau local, en offrant notamment l'hébergement et les repas à Beijing ainsi qu'une participation aux faux frais d'un montant de 50 yuan renminbi par personne et par jour. Aux fins de ce soutien, le CRFP de l'OMM à Beijing retiendra un candidat par pays en développement et deux candidats pour chacun des pays les moins avancés. Les autres frais, tels que les billets aller-retour internationaux, les frais de visa, les dépenses de santé et d'assurance et les traitements nationaux devront être pris en charge par les participants ou par leurs gouvernements respectifs. Il est conseillé aux participants d'arriver à Beijing le 14 octobre 2013 et d'en repartir le 26 octobre. Pour de plus amples renseignements, veuillez vous référer à la note d'information sur le cours (*Enrolment Information*, annexe I).

Aux: Représentants permanents (ou directeurs des Services météorologiques ou hydrométéorologiques) des Membres de l'OMM (PR-6713)

cc: Conseillers en hydrologie auprès des représentants permanents

Les personnes intéressées sont invitées à remplir le formulaire d'inscription ci-joint (*Application Form*, annexe II), qui doit être signé par le Représentant permanent de leurs pays respectifs auprès de l'OMM, et à le renvoyer **directement** au CMATC, de préférence par courriel (gaofeng@cma.gov.cn et intcmatc@cma.gov.cn), dès que possible et **au plus tard le 1^{er} octobre 2013**.

Veuillez agréer, Madame, Monsieur, l'expression de ma considération distinguée.

(E. Manaenkova)
pour le Secrétaire général

ENROLMENT INFORMATION

International Training Course on Regional Climate Prediction and Drought Monitoring

International Training Course on Regional Climate Prediction and Drought Monitoring will be held in Beijing, China from 15 to 25 October 2013 by the WMO Regional Training Centre Beijing (RTC-Beijing), sponsored by the China Meteorological Administration (CMA).

1. Objectives

Through the training course, the participants will have a good understanding of short-term climate prediction and drought-related issues. The course is also designed to help trainees learn new techniques of diagnosis and attribution on extreme climate events (especially drought events), improve the climate prediction skills in developing countries.

2. Date and Venue

15 to 25 October 2013, WMO Regional Training Centre Beijing, China

Note: Trainees are expected to arrive in Beijing on 14 October 2013 and depart on 26 October 2013.

3. Course Contents

The course includes:

- a) Fundamental of seasonal climate prediction and downscaling prediction;
- b) The basic characteristic of monsoon features and monsoon variability;
- c) New prediction approaches: inter-annual increment prediction approach and new predictors;
- d) Methods of multi-model ensemble, bias correction of dynamic model prediction;
- e) Definition, characteristics and mechanisms of drought events;
- f) NIDIS in US and the Global Drought Information System;
- g) Attribution of climate events: basics, examples and some useful tools in practice
- h) Case study and Lab section;
- i) Briefing WMO drought activities and results of WMO High-level Meeting on National Drought Policy

4. Training Format

Lecture, laboratory practice, group discussion, individual presentation, study tour, etc.

5. Instructors

Experts from CMA Training Centre, Beijing Climate Centre, Chinese Academy of Sciences, NOAA

6. Language of Instruction

The course will be only conducted in **English**.

7. Targeted Trainees

Meteorologists engaged in operational work or research on climate analysis and prediction, especially those from developing countries

8. Participants' Qualifications for Admission

Participants are required:

- a) To be specialized in meteorology and with a minimum of one year's professional experience;
- b) To be in good physical health with no infectious diseases. Physically fit to fulfill all course activities; candidates with limited physical mobility will not be accepted;
- c) To be proficient in English;
- d) To prepare a report on climate prediction of the participants' service and a brief introduction of the participant's professional experiences for the purpose of exchanges;
- e) Not to bring family members to the training course;
- f) To observe all the laws, rules and regulations of People's Republic of China and respect the Chinese customs during the training period.

9. Application and Admission

- a) The applicants must be meteorologists who are working in the fields of climatology and other related fields from National Meteorological and Hydrological Services. The nominated candidates are requested to submit the Application Forms to RTC-Beijing for examination and endorsement. Application shall be submitted and reach RTC-Beijing no later than 1 October 2013 with copy to WMO Secretariat.
- b) Admission Notices will be issued to the accepted participants by e-mail by the RTC-Beijing. With the Admission Notices, the participants are requested to go through all the necessary formalities for entering China and bring all the documents (Admission Notices, Health Document, Application Forms) to RTC-Beijing on the registration date of **14 October 2013**;
- c) Only accepted applicants that receive the Admission Notices endorsed by RTC-Beijing can participate in the training course.

10. Training Expenses

- a) Tuition is free for all the accepted participants that receive the endorsed Admission Notices by RTC-Beijing;
- b) RTC-Beijing will provide local support to the accepted participants from developing countries, including accommodation, meals, and pocket money (50 Yuan RMB per day). Participants from developed countries shall be responsible for their own local cost.
- c) The international travel costs including round trip tickets, transit fares and subsistence allowance during the travel are to be covered by the participants;
- d) The expenses of visa, medical care, insurances and domestic salaries for the participants should be borne by the participants.
- e) It should be taken into account when booking the flight tickets that the scholarship covers exclusively from **15 to 25 October 2013**. Any liability or expenses out of this term shall be entirely at the expense of the participants.

11. Insurance

The organizer of the Training Course does not hold any responsibility for such risks as loss of life, accidents, illness, and loss of property incurred during the whole period of participation in the training course.

12. Deadline for application

Application shall be submitted and reach RTC-Beijing no later than **1 October 2013**.
