Annex: 1

Subject: Circular letter of the President of the Commission for Climatology announcing the composition and membership of Expert Teams

Dear Colleagues and Friends,

I am pleased to inform you of the results of the 1st meeting of the Management Group (MG) of the WMO/Commission for Climatology (CCI) on the composition and membership for the Expert Teams (ET) under the four Focus Areas (FA) approved in the CCI-17th Conference for the 17th intersession period. In the Annex to this letter, you will find the ET's membership. The complete CCI organisational structure can be found at <http://www.wmo.int/pages/prog/wcp/ccl/ccl-17-structure.php>.

As you may recall, the Commission charged the Management Group with the responsibility of identifying the experts for its various working structures. The Commission also provided guidance, in the form of recommendations to the Management Group, on experts from each region. These recommendations have been taken into account in the final composition of the working structures to the fullest extent possible, at the same time also taking into consideration regional and gender balance.

To: Members of the Commission for Climatology
Members of the CCI Management Group, Focus Areas and Experts

cc: Presidents of technical commissions)
Presidents of regional associations)
Chairpersons of regional associations' working groups) (for information)
and regional associations' rapporteurs dealing with)
CCI-related matters)

WMO is rapidly expanding its engagement with development partners to provide an increased level of support to Members. Therefore, experts nominated by Permanent Representatives who have not been placed in working structures are nevertheless an important resource for WMO.

I have no doubt that present and future new and exciting challenges that CCI will face during this new intersessional period will foster successful activities that will bring benefits for the entire WMO family. The work of the volunteers and the kind nominations by the Permanent Representatives are an invaluable support for CCI work. More information on the outcomes of the Management Group meeting will be forthcoming in a subsequent circular letter shortly.

Yours sincerely,
