22 August 2024

Subject: WMO Annual State of the Climate reporting

Action required: To send your contribution by **30 September 2024**

Dear Sir/Madam,

I am pleased to announce the launch of the content preparation process for the Annual State of the Climate in 2024 reporting. A global summary statement will be released in November 2024 at the twenty-ninth session of the Conference of the Parties (COP29). The final WMO State of the Global Climate report will be published in March/April 2025.

The Climate Monitoring and Policy Services Division (CMP) has developed a dedicated online data collection platform for extreme and high-impact events, which serves as a single entry point for both the global and regional State of the Climate in 2024 to facilitate sharing information on high-impact events, an adequate geolocation of the events, quality control and updates. It would be appreciated if you could complete this survey by **30 September 2024**. You are further invited to update your contributions for 2024 after this deadline (but **not later than 15 January 2025**). The survey can be accessed [here](#). If you encounter any problems, you may contact Ms Claire Ransom, Assistant Scientific Officer, at cransom@wmo.int.

The survey includes a space to upload documents and photos, but if you prefer, you may send a year-to-date climate summary (text with figures) of your country to Mr Omar Baddour (obaddour@wmo.int), the Secretariat coordinator of the reports, with a copy to Dr John Kennedy (jjk8932@googlemail.com), the lead author of the WMO State of the Global Climate in 2024 and Ms Claire Ransom (cransom@wmo.int). Previous State of the Climate reports can be found at <https://wmo.int/publication-series/state-of-global-climate-2023>.

I thank you for your continued support in promoting the programmes and activities of WMO.

Yours faithfully,

Prof. Celeste Saulo
Secretary-General

To: Permanent Representatives of Members with WMO
