Annexes: 2

Subject: Update of Country Profiles in WMO Country Profile Database (CPDB)

Action required: Provide Monitoring and Evaluation (M&E) data required as part of your country/territory's CPDB profile **by 5 March 2019** 

Dear Sir/Madam,

You are kindly invited to update the profile of your country/territory in the WMO CPDB as well as provide any new M&E data requested at https://www.wmo.int/cpdb/login. The purpose is to measure performance on the WMO Key Performance Indicators for presentation at the Eighteenth World Meteorological Congress (Cg-18) in June 2019.

Based on the information collected in 2017, a Mid-Term Performance Assessment Report 2016-2017 was developed, assessing progress in implementation of the Expected Results and Key Outcomes of the WMO Strategic Plan. A Summary of the Mid-Term Report was also prepared, highlighting capacity gaps as well as areas where notable progress had been achieved. You will notice the lack of representative data from several WMO Regions, which hampered the data analysis and prevented us from drawing evidence-based regional trends and conclusions. Such region-specific analysis is critical to the development of the WMO Operating Plan 2020-2023, gaps identification, and targeting investment.

I rely on your early action in providing the necessary data for us to be able to (a) prepare an updated performance assessment report for Cg-18 and (b) establish baselines and set targets for the set of monitoring indicators designed for the next financial period.

The ultimate objective is to turn CPDB into a single repository of information accessible to all Members. The existence of such a knowledge hub will facilitate the identification of capacity gaps at the national level, support regional priority settings, and inform the investment decisions of stakeholders involved, including development partners.

While I encourage you to review and update your country/territory's entire profile, I would appreciate if you could give priority to the questions listed in Annex 1. Guidelines on how to update CPDB, including login and password reset, are available in Annex 2. In case you need any technical assistance, please contact cpdb@wmo.int.

Thank you in advance for your cooperation.

Yours faithfully, (P. Taalas) Secretary-General

To: Permanent Representatives (or Directors of Meteorological or Hydrometeorological Services) of Members of WMO

# Monitoring and Evaluation (M&E) Data Required<sup>1</sup>

Part I:	Mandate and Planning
	- Update: Questions 1.9-1.14
	- New: Questions 1.15-1.20
Part II:	NMS Capacity
	- Update: Questions 2.11-2.13, 2.21-2.22
Part III:	Quality Management
	- New: Questions 3.1-3.9
Part IV:	Disaster Risk Reduction
	- New: Question 4.1
	- Update: Questions 4.2-4.16
Part V:	Data and Observations
	- New: Question 5.1
	- Update: 5.2-5.11, 5.16-5.17
Part VI:	Services
	- New: Questions 6.3, 6.6-6.7
	- Update: Questions 6.1-6.2, 6.4-6.5, 6.8, 6.14
Part VII:	Climate Services
	- New: Questions 7.1-7.5
	- Update: 7.6
Part VIII:	Hydrology

- To be updated following the Extraordinary Session of the Commission for Hydrology (CHy-Ext.(2019))

<sup>&</sup>lt;sup>1</sup> Marked with a 'clock' symbol  $\bigcirc$  in CPDB.

# Guidelines on Updating the WMO Country Profile Database (CPDB)

### Step 1: Go to https://www.wmo.int/cpdb/

Step 2: Click "Login" as shown above.

Step 3(a): Insert your username/email and password. (Please see 3(b) and 3(c) below if you do not have or have forgotten your password.)

Please use <u>the same</u> username and password as previously used to access CPDB. At login, use either the ISO-3 letter country code of your country, or use your primary email as communicated to WMO and visible on the profile page under Permanent Representative of your country.

### Step 4: Click on "Edit Institutional Information."

- *Note:* Obtaining all the necessary information will require the active involvement of staff from across the NMS/NHS and/or other institutions in your country. You may wish to print out sections of the integrated questionnaire and disseminate to relevant departments/institutions. We also encourage you to involve the designated CPDB and M&E Focal Points in your country in the process.
- Step 5: Select the language in which you would like to respond to the questionnaire (Arabic, English, French, Russian or Spanish). Note that your response will be translated into English which is the language in which CPDB is currently available. WMO is working on developing different language versions in the near future.

Step 6: Click on Tab I (NMS Mandate and Planning).

- Step 7: Go through each question by (a) updating existing data, as required, and (b) inserting data in the blank fields.
- *Note*: While we encourage you to provide all the information at once, we ask that you assign special priority to questions related to Monitoring and Evaluation (M&E), given their time sensitivity. They are marked with a 'clock' symbol <sup>(2)</sup> and aggregate responses will be used in the WMO Updated Performance Assessment Report. **Deadline for responding: 5 March 2019**.
- Step 8: Upon completing Tab I, click "Submit."
