30 March 2021

Subject: Postponement into 2022 of the annual collection of data for publication in World Weather Records

Dear Sir/Madam,

I wish to inform you that the collection of World Weather Records (WWR) 2020 will be postponed into 2022 and a separate WMO call will be issued in 2022 for the joint collection of 2020 and 2021 World Weather Records. The postponement has been proposed to allow focusing resources on the collection of the new Climatological Standard Normals 1991-2020, which is expected to start in October 2021 (a separate WMO call will be issued in due time).

Should you require further clarification, please do not hesitate to contact the WMO Climate Monitoring and Policy Services Division (Mr Omar Baddour and Mr Peer Hechler at the following email address: wcdmp@wmo.int).

I wish to thank you for your continued support to the WMO activities.

Yours faithfully,

Dr Elena Manaenkova
for the Secretary-General
