Subject: WCRP Sea Level Conference 2022 “Advancing Science, Connecting Society”

Dear Sir/Madam,

I would like to draw your attention to, and encourage your participation at the upcoming World Climate Research Programme (WCRP) Sea Level Conference themed “Advancing Science, Connecting Society” in Singapore from 12 to 16 July 2022 (<https://sealevelconference.org/>).

The Conference will provide an opportunity to share the present status and future of climate-related sea-level research with a strong focus on the application of sea-level science for adaptation and stakeholder needs. Given the critical need for risk assessment and coastal adaptation, it will include direct participation by a global cross-section of both leading sea level researchers and adaptation practitioners - thereby providing a robust platform to help bridge science and society.

The World Climate Research Programme is sponsored by the World Meteorological Organization, the International Science Council, and the Intergovernmental Oceanographic Commission of UNESCO.

More information is available on the [conference website](#) as well as on the flyer in the annex.

Yours faithfully,

Dr Elena Manaenkova
for the Secretary-General

To: Permanent Representatives of Members with WMO

WCRP SEA LEVEL CONFERENCE

ADVANCING SCIENCE, CONNECTING SOCIETY

12 - 16 July 2022

Following the success of the WCRP Sea Level Conference in 2017 (New York), the conference returns this year in a hybrid format in Singapore. Organised by the World Climate Research Programme (WCRP), and supported by CLIVAR, EDS, MOS, MSE and RIME'S, the theme of the WCRP Sea Level Conference 2022 is "Advancing Science, Connecting Society". The conference provides opportunities to share the present status and future of climate-related sea-level research with a strong focus on the application of sea-level science for adaptation and stakeholder needs. Given the critical need for risk assessment and coastal adaptation, it will include direct participation by a global cross-section of both leading sea level researchers and adaptation practitioners. The conference will feature a robust conversation between these communities to inform efforts to bridge science and society at this critical moment, including consideration of the new structure of WCRP.

Date
12 - 16 July 2022

Time
8.30am - 6.00pm, SGT

Venue
Sands Expo & Convention Centre,
Marina Bay Sands Singapore

Register now and learn more from leading climate experts from around the world who will share the latest science behind sea level projections

FEATURING THE FOLLOWING RENOWNED SPEAKERS:

12

JULY

Dr Xiao Cunde
Director
Beijing Normal University

Dr Alex Robel
Assistant Professor
Georgia Institute of Technology

Dr Judy Lawrence
Senior Research Fellow
Victoria University of Wellington

Dr Daniela Hirschfeld
Assistant Professor
State University

Prof Kevin Horsburgh
Climate Science Lead
Green Climate Fund

Dr Bette Otto-Bliesner
Senior Scientist
National Center for Atmospheric Research

13

JULY

Dr Natasha Barlow
Associate Professor
University of Leeds

Dr Miron Vizzaino
Assistant Professor
Technical University Delft
The Netherlands

Dr Harry Zekollari
Professor
ETH Zurich

14

JULY

Prof Jason Lowe
Head of Climate Services
Met Office

Dr Jochen Hinkel
Senior Researcher
Global Climate Forum

Dr Marjolijn Haasnoot
Associate Professor
Utrecht University

Prof Chan Eng Soon
Professor
National University of Singapore

15

JULY

Dr Thomas Frederikse
Postdoctoral Fellow
Jet Propulsion Laboratory

Dr Cheng Lijing
Associate Professor
Chinese Academy of Sciences

16

JULY

Dr Zhang Xuebin
Principal Research Scientist
CSIRO, Australia

Dr Lorenzo Menzies
Junior Assistant Professor
University of Bergen
