Our ref.: 07292/2023/GS/CNF/EC-77

6 April 2023

Subject: Seventy-seventh session of the Executive Council (EC-77)

Your Excellency,

I have the honour to inform you that the seventy-seventh session of the Executive Council (EC-77) will take place in Geneva, Switzerland, on 5 and 6 June 2023, as a physical meeting with the possibility of online participation.

This notification is being sent to all Members of the Organization because at the present time, the full composition of EC-77 is not known and will be established through the elections, which will be held during the Nineteenth World Meteorological Congress (Cg-19), with the exception of the presidents of the six regional associations, who, as ex officio members of the Executive Council, are elected by their respective association and are invited to EC-77.

I should be greatly obliged if you could kindly take appropriate steps so that the Director of the Meteorological Service of your country may take part in EC-77 if he/she should be elected as a member of the Council or if, being a president of a regional association, he/she is already an ex officio member.

Relevant information pertaining to the composition and functioning of the Executive Council are found in [Articles 13 to 17](#) of the Convention and [Regulations 112 to 129](#) of the WMO General Regulations (*Basic documents No. 1* (WMO-No. 15)).

Please note that the provisional annotated agenda and documents for the session will be posted online on the [session website](#) in due time.

For all communication and further information concerning the online registration, please contact the Secretariat by email at: registration@wmo.int.

A copy of this letter is being sent to the Permanent Representative of Members with the World Meteorological Organization.

Accept, Sir/Madam, the assurances of my highest consideration.

Yours faithfully,

Prof. Petteri Taalas
Secretary-General

To: Ministers of Foreign Affairs of Members of the World Meteorological Organization
Cc.: Permanent Representatives of Members with the World Meteorological Organization
