Annex(es): 1

To designated IPCC Focal Points and
Ministries of Foreign Affairs
(if no focal point has been designated)

COPY

GENEVA, 6 February 2019

Dear Sir/Madam,

As you may know the IPCC produces at regular intervals scientific Assessment Reports on climate change. The IPCC also produces Special Reports, Methodology Reports, Technical Papers and Supporting Material.

A number of IPCC reports – in particular the Assessment Reports – are published commercially and can be obtained from the publishers or leading bookshops. A limited number of hard copies of the full reports are also available from the IPCC Secretariat for developing countries and countries with economies in transition.

Currently the IPCC Secretariat has in stock a large number of free publications that you may be interested in to obtain for your libraries or distribution to your stakeholders. The current stock dates back to 1997 (see Annex I).

If you are interested in obtaining any of the publications listed in Annex 1, please send an e-mail indicating the title(s) of the publication(s) as well as the number of copies that you would like to receive and address it to Ms Laura Biagioni at: lbiagioni@wmo.int by 28 February 2019. She will then arrange for the shipment of these materials.

Kindly note that the IPCC Secretariat would like to receive your reassurance that you will take the necessary action to facilitate the importation in your country of the IPCC shipments. To that end it would be helpful if you could assign a contact person to assist with the processing of the shipments.

A copy of this letter is being sent for information to the Ministry of Foreign Affairs and to the Permanent Representatives from your country to the World Meteorological Organization and to the United Nations Environment Programme.

Yours sincerely,

(Abdalah Mokssit)
Secretary of the IPCC

STOCK of IPCC PUBLICATIONS

2 January 2019

Please indicate the number of prints, your full contact details and return it back to lbiagioni@wmo.int
