Notre réf.: 5603-11/RES/AER/GAW-GEN   GENÈVE, le 13 octobre 2011

Annexe: 2 (disponibles en anglais seulement)

Objet: Coordonnateur national du Programme de la Veille de l'atmosphère globale (VAG) et Système d'information sur les stations

Madame, Monsieur,

Comme vous le savez, le Programme de la Veille de l'atmosphère globale de l'OMM (VAG) porte sur les observations intégrées de la composition chimique de l'atmosphère (http://www.wmo.int/pages/prog/arep/gaw/gaw_home_en.html). La participation de votre pays est par ailleurs grandement appréciée et nous vous en remercions.

Nous avons entrepris de mettre à jour les informations relatives aux stations de la VAG figurant sur le site Web du Système d'information sur les stations de la Veille de l'atmosphère globale (GAWSIS). C'est pourquoi nous vous prions de vérifier que votre coordonnateur chargé d'informer l'OMM des activités afférentes à la VAG est correctement mentionné dans le système. Si ce n'est pas le cas, ou si vous n'avez pas de coordonnateur national de la VAG, nous vous demandons d'en désigner un pour qu'il soit mentionné comme tel dans le GAWSIS. Dans les deux cas, veuillez confirmer ces informations à l'aide du formulaire ci-joint.

Pour certaines informations des stations de la VAG implantées dans votre pays et mentionnées dans le GAWSIS, l'information relative au responsable de la station est manquante ou bien la station ne communique pas de données aux Centres de données de la VAG, ou alors l'état de fonctionnement de la station est «inconnu». Vous trouverez ci-joint la liste des stations situées dans votre pays.

Nous souhaitons attirer votre attention sur le fait qu'il revient au coordonnateur national d'assurer la mise à jour des informations sur les stations dans le GAWSIS. Ce coordonnateur s'occupe essentiellement des activités relatives aux stations mondiales et régionales de la VAG situées dans votre pays, et de la documentation y afférente.

Aux Représentants permanents (ou directeurs des Services météorologiques ou hydrométéorologiques) des Membres de l'OMM (distribution restreinte)

Comme vous le savez, le Système d'information sur les stations de la Veille de l'atmosphère globale est largement utilisé et il est essentiel que les renseignements qu'il contient soient à jour. Il donne un aperçu de vos stations à la communauté internationale et il est donc dans votre intérêt et dans celui de l'OMM que les informations relatives à votre pays soient correctes. Nous serions heureux de recevoir vos commentaires et suggestions visant à améliorer ce système et son mode de mise à jour. Pour toute question relative au Programme de la VAG ou aux stations en particulier, veuillez contacter Mme Oksana Tarasova, fonctionnaire scientifique (otarasova@wmo.int).

En vous remerciant de votre collaboration, je vous prie d'agréer, Madame, Monsieur, l'expression de ma considération distinguée.

(J. Lengoasa)
pour le Secrétaire général
