Annexes: 2 (disponibles en anglais uniquement)

Objet: Cours international de formation sur l'application des satellites météorologiques à l'atténuation des catastrophes et aux études environnementales (22 octobre – 2 novembre 2012, Beijing, Chine)

Suite à donner: Pour information et mesures à prendre, le cas échéant

Madame, Monsieur,

J'ai le plaisir de vous informer que la République populaire de Chine accueillera un cours international de formation sur l'application des satellites météorologiques à l'atténuation des catastrophes et aux études environnementales du 22 octobre au 2 novembre 2012, au Centre de formation de l'Administration météorologique chinoise (CMATC) de Beijing, qui est l'une des composantes du Centre régional de formation professionnelle (CRFP) de l'Organisation météorologique mondiale (OMM) en Chine.

Ce cours, destiné aux météorologistes de pays en développement dont les activités se rapportent à la météorologie satellitaire et autres domaines connexes, se déroulera en anglais.

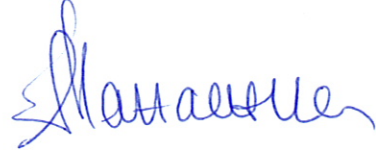

Les candidats retenus recevront le document «Admission Notices» approuvé par le CRFP de l'OMM à Beijing et seront exonérés de frais d'inscription. Le Gouvernement chinois apportera aux participants, sur demande, un soutien au niveau local consistant notamment à assurer l'hébergement et les repas à Beijing et à fournir 50 yuan renminbi d'argent de poche par personne et par jour. Un candidat par pays en développement ou deux candidats par pays comptant parmi les moins avancés peuvent être retenus par le CRFP de l'OMM à Beijing aux fins d'un tel soutien. Les autres frais tels que les billets aller-retour internationaux, les frais de visa, les dépenses de santé et d'assurance et les traitements nationaux devront être pris en charge par les participants ou leurs gouvernements respectifs. Il est conseillé aux participants d'arriver à Beijing le 21 octobre 2012 et d'en repartir le 3 novembre 2012. Pour de plus amples informations sur ce cours international, veuillez vous référer à l'annexe I («Enrolment Information»).

Aux: Représentants permanents (ou directeurs des Services météorologiques ou hydrométéorologiques) des Membres de l'OMM (PR-6648)

cc: Conseillers en hydrologie auprès des représentants permanents

Les candidats intéressés sont invités à remplir le formulaire d'inscription ci-joint (annexe II), qui doit être approuvé par le représentant permanent de leurs pays respectifs auprès de l'OMM, et à l'envoyer directement au CMATC, de préférence par télécopie (+86 10 68 40 92 25) ou par courriel (intcmatc@cma.gov.cn), d'ici au **21 septembre 2012 au plus tard**.

Veuillez agréer, Madame, Monsieur, l'expression de ma considération distinguée.

(E. Manaenkova)
pour le Secrétaire général

ENROLMENT INFORMATION

International Training Course on Application of Meteorological Satellites in Disaster Mitigation and Environmental Studies

(Beijing, China, 22 October – 2 November 2012)

The International Training Course on the Application of Meteorological Satellites in Disaster Mitigation and Environmental Studies is organized by WMO Regional Training Centre in Beijing (RTC-Beijing), sponsored by China Meteorological Administration (CMA).

1. Objectives

To learn and know satellite meteorology related knowledge, the recent operational, scientific research and management development, and to know the latest development in the application of meteorological satellites in disaster mitigation as well as environmental studies, which will be helpful to improve participants' abilities in carrying out the operation of meteorological satellites, scientific research and management.

2. Date and Venue

October 22-November 2, 2012, WMO Regional Training Centre in Beijing, China

3. Course Contents

Introduction of FY series meteorological satellites and their application; infrared precipitation estimation and microwave precipitation retrieval; cloud motion wind products; tropical cyclone monitoring; observation operator and aerosols in satellite data assimilation; NSMC satellite data exchange and sharing; retrieval method of cloud parameters by remote sensing data; application of meteorological satellite to space weather; atmospheric sounding from satellite and its application; thermal infrared remote sensing and its application; application of atmospheric composition remote sensing in environmental and climate studies; progress on the application of satellite data in Numerical Weather Prediction; use of FY-3 satellite data in Numerical Weather Prediction; satellite channel setting and its application on disaster mitigation and environment studies; urban island monitoring; wild fire monitoring; water body monitoring; alga monitoring; drought monitoring with meteorological satellite; study on satellite data characterization of the tropical waves: Madden-Julian Oscillation (MJO) and Tropical Instability Waves (TIWs); remote sensing of volcanic eruption; the satellite image characters of heavy rainfall which is related to the upper troposphere anticyclone in south China; snow cover monitoring; sea ice monitoring.

4. Training Format

Lecture, seminar on special topics, study tour, discussion, presentation, etc.

5. Instructors

Prestigious scientists, experts, meteorologists in China

6. Language of Instruction

The course will be conducted in English.

7. Targeted Trainees

Meteorologists who are working in the field of satellite meteorology and other related fields, especially those from developing countries.

8. Participants' Qualifications for Admission

Participants are required:

- a) To be specialized in satellite meteorology with a minimum of one year's professional experience;
- b) To be in good physical health with no infectious diseases. Physically fit to fulfil all course activities; candidates with limited physical mobility will not be accepted;
- c) To be proficient in English;
- d) To prepare a report on satellite meteorology of the participants' service and a brief introduction of the participant's professional experiences for the purpose of exchanges;
- e) Not to bring family members to the training course in principle, if bringing a family member, the participant has to pay all the related expenses;
- f) To observe all the laws, rules and regulations of People's Republic of China and respect the Chinese customs during the training period.

9. Application and Admission

- a) The applicants must be meteorologists who are working in the field of satellite meteorology and other related fields. The nominated candidates are requested to submit the Application Forms to RTC-Beijing for examination and endorsement.
- b) Admission Notices will be issued to the accepted participants by e-mail/fax by RTC-Beijing. With the Admission Notices, the participants are requested to go through all the necessary formalities for entering China and bring all the documents (Admission Notices, Application Forms) to RTC-Beijing on the registration date of 21 October 2012;
- c) Only accepted applicants that receive the Admission Notices endorsed by RTC-Beijing can participate in the training course.

10. Training Expenses

- a) Tuition is free for all the accepted participants that receive the endorsed Admission Notices by RTC-Beijing;
- b) RTC-Beijing will provide local support to the accepted participants from developing countries, including accommodation, meals, and pocket money (50 Yuan RMB per day). Other participants shall be responsible for their own local cost.
- c) The international travel costs including round trip tickets, transit fares and subsistence allowance during the travel are to be covered by the participants or their employers;
- d) The expenses of visa, medical care, insurances and domestic salaries for the participants should be borne by the participants' employers.

11. Insurance

The organizer of the International Training Course on the Application of Meteorological Satellites in Disaster Mitigation and Environmental Studies does not hold any responsibility for such risks as loss of life, accidents, illness, and loss of property incurred during the whole period of participation in the training course.

12. Deadline for application

Application shall be submitted and reach RTC-Beijing no later than **21 September 2012**.
