Objet: Atelier international sur la prévision immédiate des précipitations
(7-11 décembre 2015, Hong Kong, Chine)

Suite à donner: Pour information et mesures à prendre, le cas échéant

Madame, Monsieur,

Le Représentant permanent de Hong Kong, Chine, auprès de l'Organisation météorologique mondiale (OMM) m'a informée qu'un atelier international sur la prévision immédiate des précipitations aurait lieu à Hong Kong du 7 au 11 décembre 2015.

Cet atelier portera sur les principes fondamentaux sur lesquels s'appuient les techniques de prévision immédiate des précipitations à partir des données obtenues par radar et satellite, ainsi que sur les derniers développements qui sont intervenus dans ce domaine. À cette occasion, le système de prévision immédiate (SWIRLS) de l'Observatoire de Hong Kong (HKO), qui permet d'obtenir des estimations et des prévisions quantitatives des précipitations, sera présenté en vue de renforcer les capacités de prévision et d'alerte des Services météorologiques et hydrologiques nationaux (SMHN) en ce qui concerne les conditions météorologiques extrêmes.

L'atelier, dont le programme est décrit dans ses grandes lignes à l'annexe I, s'adresse aux prévisionnistes et aux chercheurs chargés de l'élaboration des systèmes de prévision immédiate et des prévisions connexes. Priorité sera donnée aux Membres de la Région II et aux pays participant au projet de démonstration de l'OMM concernant la prévision des conditions météorologiques extrêmes. Veuillez noter que l'Observatoire de Hong Kong est disposé à proposer des bourses pour couvrir les droits d'inscription et les frais de séjour de 20 participants au plus.

Les personnes intéressées sont invitées à remplir le formulaire d'inscription ci-joint (annexe II) et à le renvoyer directement à l'Observatoire de Hong Kong (par courriel à l'adresse tkung@hko.gov.hk, par télécopie au numéro +852 2375 2645 ou par téléphone au numéro +852 2926 8319), le **15 août 2015** au plus tard.

Veuillez agréer, Madame, Monsieur, l'expression de ma considération distinguée.

(M. Jarraud)
Secrétaire général

Aux: Représentants permanents (ou directeurs des Services météorologiques ou hydro-météorologiques) des Membres de l'OMM (PR-6845)

**WMO VCP WORKSHOP ON RAINFALL NOWCASTING
7-11 DECEMBER 2015 HONG KONG, CHINA**

Objective

To introduce the basic principles of rainfall nowcasting and highlight the recent developments in rainfall nowcasting techniques using radar and satellite data with a view to enhancing the capability of Members in severe weather forecasting and warning.

Contents

- i. Basic principles of rainfall nowcasting using radar and satellite data;
- ii. Quantitative precipitation estimation (QPE);
- iii. Quantitative precipitation forecast (QPF);
- iv. Applications of radar and satellite data in nowcasting to short-range forecasting of rainstorms and tropical cyclones;
- v. Introduction to the Hong Kong Observatory's rainstorm nowcasting system "SWIRLS" (Short-range Warning of Intense Rainstorms in Localized Systems);
- vi. Sharing of experience from WMO Members; and
- vii. Practical sessions and discussions.

Language of instruction

English

Course Date

7 to 11 December 2015

Deadline for application

The completed WMO Fellowship Nomination Form should be returned to the Hong Kong Observatory with a copy to the WMO Secretariat by **15 August 2015**.

Places offered

A maximum of 20 participants. Preference will be given to qualified applicants from RA II Members as well as participating countries of the WMO Severe Weather Forecasting Demonstration Project (SWFDP).

Qualification of trainees

- Trainees are required to be proficient in English;
- Trainees should have relevant skills in information technology related to the processing and use of radar and/or satellite data;
- Trainees should have experience or strong interests in the application of radar and/or satellite

data in severe weather forecasting;

- Trainees are expected to take a role in the development or applications of radar and satellite data to support severe weather forecasting activities in their respective NMHSs after training;
- All trainees are required to provide the course organizer with feedback on the usefulness of the knowledge and skills acquired for the use of radar and satellite data as well as the applications of nowcasting techniques within 6 months after the workshop;
- All trainees are encouraged to actively maintain technical exchange and communication with the organizer and among themselves after the workshop.

Fellowship

- Tuition fee will be waived. Lodging will be provided, supplemented by a per diem allowance of HK\$180 per day;
- The costs of air passage and related insurance costs between Hong Kong, China and the home town of participants will have to be borne by the recipient WMO Members. In the event any Member is unable to meet the air passage costs, the Hong Kong Observatory is prepared to offer a limited number of air passages for those in need, on a case-by-case basis.

Insurance

The course organizer does not hold any responsibility for compensation in the event of death, illness, injury or loss of property during the course period. The same applies to the duration of travel in the event the Hong Kong Observatory provides the air travel. Participants are therefore fully responsible for arranging life, health, and other forms of insurance as appropriate and necessary.

Enquiries

Mr Terence Kung, Scientific Officer, Hong Kong Observatory, Hong Kong, China. E-mail: tkung@hko.gov.hk, fax: (852) 2375 2645, tel: (852) 2926 8319.

PARTICIPANTS NOMINATION FORM

**VCP Workshop on Rainfall Nowcasting
Hong Kong, China, 7-11 December 2015**

The Government of _____
nominates the following candidate as a participant of the above workshop.

1. Family name (in capitals): _____

2. First name (in capitals): _____

3. Address: _____

Tel: _____ Fax: _____

E-mail: _____

4. Date of birth: _____ Male Female

Nationality: _____

Passport No.: _____

Date of issue: _____ Expiry date: _____

5. Qualifications (certificates, diplomas or degrees):

6. Present position and brief description of duties:

7. What roles or tasks will your participant be required to undertake after this workshop to enable your service to make the most of the opportunity to develop new knowledge and skills?

.....
.....
.....

8. Working language:

(Note: For applicants whose working language is not ENGLISH, this nomination form must be accompanied by English proficiency certification.)

9. Contact person in emergency:

Name:

Address:

Tel: Fax:

E-mail:

10. Financial assistance for travel required: Yes No

11. I fully understand that the organizer does not hold any responsibility for compensation in the event of death, illness, injury or loss of property during the period of the workshop.

Permanent Representative: (Signature)

..... (Block letters)

Date:

To be completed and sent to reach the following address on or before **15 August 2015**:

Director of the Hong Kong Observatory
(Attn: Mr Terence Kung, Scientific Officer)
134A, Nathan Road
Hong Kong, China
