Objet: Atelier international sur la météorologie aéronautique à l'intention des prévisionnistes (Doha, Qatar, 31 mai–4 juin 2020)

Suite à donner: Pour information et mesures à prendre avant le **16 avril 2020**

Madame, Monsieur,

Je tiens à vous informer que le Centre régional de formation professionnelle (CRFP) de l'OMM au Qatar, le Collège aéronautique du Qatar, organise l'atelier mentionné en objet dans ses locaux de Doha, du 31 mai au 4 juin 2020.

Cet atelier, qui se déroulera en anglais, s'adresse aux prévisionnistes en météorologie aéronautique des Régions I et II et sera axé sur divers aspects et problèmes en lien avec les prévisions météorologiques destinées à l'aviation et les compétences requises pour les prévisionnistes de ce domaine. Le CRFP du Qatar exonérera de frais d'inscription tous les participants acceptés et apportera un soutien local partiel sous la forme de déjeuners de travail et de déplacements sur place. Les billets de transports internationaux aller-retour et les autres dépenses sur place seront pris en charge par les gouvernements ou les parrains des participants acceptés. Pour de plus amples renseignements sur l'atelier et la procédure d'inscription correspondante, vous trouverez ci-joint une note d'information (annexe I).

Les personnes intéressées sont invitées à remplir le formulaire d'inscription ci-joint (annexe II), qui doit être approuvé par le Représentant permanent de leur pays respectif auprès de l'OMM, et à l'envoyer directement au CRFP du Qatar, le plus rapidement possible, au plus tard le **16 avril 2020**.

Veillez agréer, Madame, Monsieur, l'expression de ma considération distinguée.

(W. Zhang)

pour le Secrétaire général

Aux: Représentants permanents (ou directeurs des Services météorologiques ou hydrométéorologiques) des Membres des Conseils régionaux I et II de l'OMM

cc: Conseillers en hydrologie auprès des représentants permanents des Conseils régionaux I et II

# ENROLMENT INFORMATION

## Workshop on Aviation Meteorology for Forecasters (Doha, Qatar, from 31 May to 4 June 2020)

### 1. Date and Venue

The Qatar Aeronautical College (QAC), WMO Regional Training Centre (RTC) in Qatar, will organize a workshop on “Aviation Meteorology for Forecasters” at the facilities of the QAC in Doha, Qatar, from 31 May to 4 June 2020.

### 2. Objectives and Outcome

The main focus of the workshop is to discuss about various aspects and issues related with aviation weather forecasting and competency requirement for AMF. Competency assessment tools, assessment process, how competency is ascertained, the issues related with the application of forecast and warnings for international air navigation, and production of TAF will also be discussed. Aviation weather hazards, forecasting and warning will be emphasized in the workshop, besides Quality Management System (QMS) and competency assessment in the field.

After attending the workshop the participants will be able to:

- 1) Describe the ways in which the WMO AMF Competency Framework guides the effective provision of meteorological services and the development of competency,
- 2) Produce well-constructed TAF for aerodrome flight planning,
- 3) Write and demonstrate METAR, SPECI, TAF and amendments according to international standards as per AMF Competency 1 and 2 using the correct format as prescribed by ICAO,
- 4) Produce Local and Routine Special Reports and Co-ordination with MET and ATC, communication issues deals with AMF Competency 5,
- 5) Issue SIGMET/AIRMET warnings for aviation weather hazards, including thunderstorms, dust storms, turbulence, etc. according to AMF Competency 1 and 3,
- 6) Describe competency assessment tools and processes as appropriate for local aeronautical services in the region, and
- 7) Describe principles of QMS and why it is important including the relationship between competency assessment and QMS, AMF Competency 4.

### 3. Topics for Discussion:

The following topics will be discussed in the workshop:

- 1) The AMF competency framework and the need for providing competence
- 2) The use of TAF in aerodrome flight planning
- 3) METAR, SPECI and TAF production and amendments
- 4) Local, routine and special reports and coordination with MET and ATC
- 5) Aviation weather hazards-identification and forecasting
- 6) Issue of warning messages like SIGMET/AIRMET
- 7) Competency assessment tools and process
- 8) QMS and competency assessment

### 4. Training Format

Lectures, practical sessions, seminar on special topics, study tour, discussions, presentation, etc.

### 5. Language of Instruction

The course will be conducted in **English**.

### 6. Targeted Trainees

Aeronautical Meteorological Forecasters of Regional Associations II (Asia) and I (Africa).

### 7. Instructors and Qualification

Instructions will be given by:

- 1) Mr. Paul Bugeac, MSc  
Head of Training (Aeronautical Met) ROMATSA, Romania, and WMO Expert Team Member (CAeM)
- 2) Mr. Jannie Stander, MSc  
Qualification Manager, Meteorological Forecaster Training, WMO RTC in South Africa, and WMO Expert Team Member (CAeM)
- 3) Dr. Revi Kumar, MSc, PhD  
Training Manager (Meteorology), Qatar Aeronautical College (QAC) Doha

### 8. Participant's Qualification for Admission

Participants are required:

- 1) To be weather forecaster on airport or working in aviation field with a minimum of 3 years professional experiences
- 2) To be in good physical health with no infectious diseases. Physically fit to fulfil all course activities; candidates with limited physical mobility will not be accepted;
- 3) To be proficient in English
- 4) Not to bring family members to the training seminar in principle
- 5) Observe all the laws, rules and regulations of the state of Qatar and respect the Qatari customs during the training period.

## 7. Application and Admission

- 1) The applicants must be meteorologists who are working in the field of weather forecast and must be from a country of RA-II or RA-I.
- 2) The nominated candidates are requested to submit the attached Nomination Forms together with evidence of English proficiency to the WMO RTC Qatar.
- 3) Last day for receiving the application is **16 April 2020**.
- 4) Admission Notices will be issued to the accepted participants by e-mail by the WMO RTC Qatar. With the Admission Notices, the participants are requested to go through all the necessary formalities for entering Qatar and bring all the documents (Admission Notices, Application Forms) to the WMO RTC Qatar on the registration date of 31 May 2020.
- 5) Only accepted applicants that receive the Admission Notices endorsed by the WMO RTC Qatar can participate in the workshop.

## 8. Training Expenses

- 1) Tuition fee is free for all the accepted participants that receive the endorsed Admission Notices by the WMO RTC Qatar.
- 2) The WMO RTC Qatar can provide local support such as local transportation facility from the place of stay to the workshop venue, breakfast and working lunch for up to 15 participants only.
- 3) The international travel costs including round trip tickets, transit fares and subsistence allowance during the travel are to be covered by the participants or their employers.
- 4) The expenses of visa, medical care, insurances and domestic salaries for the participants should be borne by the participants' employers.

## 9. Insurance

The organizer of the Training Course on Aviation Meteorology does not hold any responsibility for such risks as loss of life, accidents, illness, and loss of property incurred during the whole period of participation in the training course.
