Вопрос: Возможности ВМО в области образования и подготовки кадров (2025 г.)

Предлагаемые меры: Для информации и принятия соответствующих мер в случае необходимости

Уважаемый господин/Уважаемая госпожа!

В порядке реализации Цели 4 *Стратегического плана ВМО на 2024–2027 годы* (ВМО-№ 1336), которая, в частности, касается необходимости «развития и поддержания основных компетенций и экспертного потенциала», рада сообщить Вам о возможностях в области образования и профессиональной подготовки, которые ВМО планирует поддержать в 2025 году. Членам, заинтересованным в выдвижении подходящего(их) кандидата(ов), необходимо ознакомиться с документом *Compendium of WMO fellowships and training opportunities* (2025) (Сборник возможностей для получения стипендий ВМО и прохождения подготовки кадров (2025 г.)), который можно скачать на [веб-сайте](#) сообщества ВМО, и тщательно следовать инструкциям. Желательно, чтобы стипендии и возможности обучения ВМО предоставлялись кандидатам из национальных метеорологических и гидрологических служб (НМГС) наименее развитых стран (НРС), а также развивающихся стран, стран с переходной экономикой, малых островных развивающихся государств (МОСТРАГ) и стран, более уязвимых к стихийным бедствиям.

В 2025 году стипендии предлагают 15 партнеров ВМО по образованию и подготовке кадров из 13 стран с самыми разными возможностями для обучения и подготовки кадров в области метеорологии, гидрологии и климатологии. Если в Сборнике не указано иное, любой кандидат, подающий заявку на стипендию для прохождения обучения в любом учреждении, должен сначала заручиться письмом о принятии от этого учреждения или находиться в процессе получения такого письма перед подачей заявки в ВМО ([fel@wmo.int](mailto:fel@wmo.int)).

Кроме того, просьба принять к сведению, что для получения рекомендаций по выбору учреждения для вашего(их) кандидата(ов) рекомендуется проконсультироваться с партнерами, перечисленными в Сборнике ([приложение II](#)), и на [веб-сайт](#) региональных учебных центров (РУЦ) ВМО, где, соответственно, содержится информация о стипендиях и возможностях обучения, предоставляемых учреждениями и странами, имеющими специальное соглашение с ВМО. Перед выдвижением кандидатуры Вам предлагается внимательно ознакомиться с содержанием документа *Guide on nominations for fellowships and training* (Руководство по выдвижению кандидатур на получение стипендий и прохождения подготовки кадров) ([приложение I](#)) и критериями отбора для присуждения стипендий и оказания спонсорской поддержки в области подготовки кадров, которые размещены в публикации [Руководящие принципы для подачи заявки на получение стипендии ВМО](#) (ВМО-№ 1104).

Постоянным представителям Членов при ВМО

Копии: Советникам по гидрологии

В связи с бюджетными ограничениями ВМО я призываю Вас быть избирательными при выдвижении кандидатов, учитывая требования ВМО к квалификации. Поэтому Вы можете обратить особое внимание на то, как Ваш запрос согласуется с потребностями НМГС в наращивании кадрового потенциала, учитывая вопросы гендерного равенства.

Прошу обратить внимание на то, что крайние сроки подачи заявок для партнеров по стипендиям ВМО и представления кандидатур в ВМО указаны в информационной таблице для каждого из партнеров по стипендиям. Однако Секретариат может распространять информацию о других имеющихся возможностях в области образования и профессиональной подготовки, а также принимает специальные запросы, подлежащие рассмотрению в соответствии с установленными критериями.

Пользуясь этой возможностью, также прошу Вас информировать нас об имеющихся в ваших национальных учреждениях возможностях получения стипендий и прохождения подготовки кадров, которые можно было бы реализовать в сотрудничестве с ВМО. Любая заинтересованность в развитии взаимовыгодных партнерских отношений может быть доведена до сведения директора Бюро по образованию и подготовке кадров, который, в свою очередь, выступит инициатором дальнейших переговоров от имени ВМО. Данное предлагаемое сотрудничество может быть инициировано в любое время в течение года. Другие Члены могут также получить такую информацию через [Платформу сообщества ВМО](#) и [Календарь событий Глобального кампуса ВМО](#).

Хотела бы выразить признательность за Вашу неизменную поддержку деятельности ВМО.

С уважением,

проф. Селеста Сауло  
Генеральный секретарь

## GUIDE ON NOMINATIONS FOR FELLOWSHIPS AND TRAINING

### 2025 COMPENDIUM OF WMO FELLOWSHIPS AND TRAINING OPPORTUNITIES: REQUIREMENTS AND GUIDE FOR APPLICATION

Ref.: 01069/2025-111 SI

1. Read through the [Guidelines for Applying for a WMO Fellowship](#) (WMO-No. 1104).
2. Check for available fellowship and training opportunities in the Compendium and RTCs website.
3. The applicant must be proficient in the language of study and/or provide documentation regarding their language proficiency as required by the institution. Please note that some institutions require an English language test, such as IELTS or TOEFL, which may take time to obtain.
4. If multiple candidates are nominated, the Permanent Representative (PR) must also provide a priority list for them.
5. The nominating Member should pay attention to the eligibility quality of the candidates to avoid future withdrawals, dropouts, failures, and study extensions.
6. Any fellowship award requires all due and overdue post-fellowship reports from previous fellows (completion report and 24 month post-fellowship report, PR familiarization reports) to be provided to WMO.
7. A completed Fellowships Nomination Form (FNF) is required for fellowship nomination (it can be downloaded from the [ETR website](#)).
8. The FNF must be signed by the PR or a formally delegated alternative signatory and sent to the Secretary-General of WMO by the closing dates stipulated for that opportunity.
9. Any nomination must provide an admission letter from the institution for the requested fellowship. The admission letter or accompanying documentation should provide the start and end dates of the course and the costs involved. To obtain the admission letter, candidates must apply to the fellowship provider, which checks the academic, language, and other requirements for acceptance.
10. All documents required for a fellowship award (FNF, admission letter, etc) must be sent to the ETR Office ([fel@wmo.int](mailto:fel@wmo.int)) to be processed according to the WMO procedures.
11. Deadlines for nominations must be followed. Late nominations beyond the deadlines are usually not considered. Issuing admission letters from institutions and obtaining the results of required language tests takes time. Candidates must take action as early as possible if such a request is foreseen.

For courses offered by WMO Regional Training Centres (RTC) of less than one month, candidates must use the nomination forms provided by the RTC. A signed request by the PR of the WMO Member is required for WMO support. Participants selected for WMO support will be asked to complete a Request for Financial Assistance (RFA) form.
