Вопрос:

Городская метеорология, окружающая среда и климатическое обслуживание, 28 августа — 8 сентября 2017 г., в Малайзийском

кампусе Университета Рединга, Путери Джохор, Малайзия

Предлагаемые меры:

Для информации и принятия необходимых мер

Уважаемый господин/Уважаемая госпожа!

Рада сообщить Вам, что Университет Рединга в своем новом Малазийском кампусе в Путери Джохор, Малайзия, проведет учебный курс «Городская метеорология, окружающая среда и климатическое обслуживание» с 28 августа по 8 сентября 2017 г.

Учебный курс будет проводиться на английском языке. Цель курса заключается в представлении основных принципов влияния городских районов на атмосферу, рассмотрении влияния городской поверхности на метеорологические наблюдения, выявлении видов климатического обслуживания, представляющих интерес в городской среде, и рассмотрении различных возможностей для предоставления обслуживания, связанного с окружающей средой, климатом и погодой.

Предварительным требованием для участников курса является наличие базовых знаний в областях микрометеорологии, метеорологии пограничного слоя, наземных наблюдений и процессов загрязнения атмосферы.

К настоящему письму прилагается документ «Course Information» (Информация о курсе) (приложение 1) и «Participant Nomination Form» (Форма назначения кандидатуры участника) (приложение 2).

Предлагается, чтобы правительства рассмотрели вопрос о внесении вклада в покрытие расходов, связанных с участием назначенных ими участников, в частности расходов на авиабилеты. Однако если это не представляется возможным, то в Форме назначения кандидатуры участника, которая должна быть завизирована Постоянным представителем соответствующей страны при ВМО не позднее **5 июля 2017 г.**, может быть указан запрос на предоставление финансового содействия. Просьба обратить внимание на то, что ВМО рассмотрит возможность предоставления финансового содействия не более чем десяти участникам, которые будут отобраны на основе критериев ВМО для присуждения стипендий (см. приложение 3).

С уважением,

(Е. Манаенкова) за Генерального секретаря

Постоянным представителям Членов Региональной ассоциации II Постоянным представителям Членов Региональной ассоциации V

#### ETR/CRS-1017, Annex I

# **Course Announcement**

#### **Title of Course**

Urban Meteorology, Environment and Climate Services

#### **Dates and Location of Course**

2 weeks, 28<sup>th</sup> August – 8<sup>th</sup> September 2017 at University of Reading Malaysia campus

# **Course Description**

Objectives or Aims of the course

- 1. Introduce basic principles of how urban areas impact the atmosphere
- 2. Consider the impact of the urban surface on meteorological observations
- 3. Identify climate services that are of interest in the urban area
- 4. Consider how environment, climate and weather services can be delivered

#### What learning needs will this course fill?

- 1. Urban meteorology
- 2. Urban environment (air quality)
- 3. Climate services

## Why should participants attend this course?

- 1. To learn about urban meteorology
- 2. To develop or deliver climate serves to urban areas
- 3. To learn about land surface atmosphere processes
- 4. To undertake observations in heterogeneous environments
- 5. To learn about land surface modelling
- 6. To learn about Integrated Urban hydrometeorology, climate and environment services

#### Why should institutions send their staff members?

- 1. National meteorological services, groups interacting with (government) agencies for climate planning and air quality forecasting, disaster risk reduction, daily operations in urban areas
- 2. NMHS staff concerned with improving NWP and air pollution forecasting in urban areas
- 3. Other agencies that have a need for meteorological and climatological information in urban areas
- 4. Researchers/consultants working with NHMS and/or agencies that use their services

## **Expected Learning Outcomes**

Intended outcomes in terms of background knowledge.

- 1. Improved understanding of micrometeorology and boundary layer meteorology
- 2. Improved understanding of urban meteorology
- 3. Improved understanding of the influence of urban environment measurements
- 4. Improved understanding of the key aspects of urban land surface modelling
- 5. Improved understanding of the key aspects of urban air pollution modelling
- 6. Improved understanding of how and what urban climate services could be delivered
- 7. Knowledge about Integrated Urban hydrometeorology, climate and environment services

#### Intended outcomes in terms of skills.

- 1. Critique siting of instrumentation in urban areas for different applications
- 2. Undertake land surface modelling of urban areas

- 3. Use tools to deliver some climate services in a city
- 4. Consider how to improve weather, environment and climate services and support in a city.

# **Target Audience and Qualifications**

What prerequisite knowledge should the participants have?

- 1. Basic understanding of micrometeorology
- 2. Basic understanding of boundary layer meteorology
- 3. Basic understanding of surface based observations
- 4. Basic understanding of atmospheric pollution processes

What job experiences?

Wide range of backgrounds would be helpful to the course.

What job responsibilities will provide the opportunities for participants to apply what they learn?

- 1. Delivering climate services
- 2. Urban meteorologists
- 3. Improving observational network
- 4. Public Outreach
- 5. Interfacing with agencies responsible for disaster preparedness, health, air quality, planning etc.

#### **Course Content**

Topics to be treated, and activities to be conducted.

Day			
1 10			
	Introduction to micrometeorology		
	Key features of the urban environment		
	Urban heat island – different types		
1.3	Presentation of urban services		
	Urban influence on wind		
2.1	Characterising the urban surface		
2.2	Evaporation and moisture		
3.1	Air pollution, radiation and aerosols		
	Site visit to weather station		
	Surface energy balance		
4.0	Precipitation		
4.1	Urban water balance		
	Urban land surface models		
	Introduction to SUEWS		
	Characterising the surface for land surface model		
5.2	Boundary layer growth		
6.0	Thermal stress and human comfort		
6.1	SOLWEIG		
	Climate services		
7.1	Urban needs for different users		
7.2	Urban needs and priorities in your area		
7.3	Identify urban services to be developed/improved		
8.0	Designing an urban integrated service I		
9.0	Designing an urban integrated service II		
10.0	Identifying where improvements could be made in		
	observations, modelling and data analysis		
	Integrated Urban hydrometeorology, climate and		
	environment services: road map and goals		

#### **Pre-course Content and Activities**

Suggested reading will be provided for students to prepare for the course. This will include online computer tutorials to ensure students have the necessary training to complete the practicals.

#### **Post-course Activities**

Participants would become part of the urban integrated service development and user community. Participants will be expected to share what they learn by working out how to deliver and/or improve the urban weather, climate and environment-related services.

#### **Course Format**

Lectures, practical exercises, site visits, projects

#### **Student Assessment**

Students will be assessed on:

- 1. Completion of project
- 2. Critique and suggested improvements

The course certificate will be dependent upon successful assessment.

#### Instructors and qualifications

Professor Sue Grimmond University of Reading

Professor Baklanov, WMO (environment aspects and WMO concept of Integrated Urban hydrometeorology, climate and environment services)

## Language Used

English

## **Application and Selection Process**

- 1. Support from employing agency
- 2. Statement of why course is of interest/relevant (~200 words)
- 3. CV demonstrating relevant background (e.g. courses, programming, working with institutions)

## Costs

Costs to be covered by participant organizations or external funding sources. The course will cost £450 plus flights and evening meals.

## **Deadline for Application**

At least 6 weeks prior to the start of the course

I.

# **Urban Meteorology, Environment and Climate Services**

28 August – 8 September 2017 University of Reading Malaysia campus, Puteri Johor, Malaysia

# PARTICIPANT NOMINATION FORM

**Note:** Please send the completed form directly to the University of Reading coordinator (h.f.dacre@reading.ac.uk) as soon as possible and in any case **no later than 15 July 2017.** 

Personal Data					
1. Surname (Family name)					
. First (Given) Name					
Gender					
4. Date of Birth					
5. Nationality					
6. Dietary instructions, if any					
7. Address					
Telephone E-mail Address					
8. Contact person in emergency Name Address					
Telephone E-mail Address					
9. Statement of present work  Name of institution  Position held					

A brief description of duties

15. Recent employment history

	To Trouble the Indian					
Date		Institution	Position and Duties			
From	То					

16. Educational and/or professional qualification

Date	Major Subjects	Board/University	Degree/Diploma

# 17. Language Proficiency

Mother Tongue

English Proficiency (Please tick):

Reading: a. excellent b. good c. fair d. poor Listening: a. excellent b. good c. fair d. poor Speaking: a. excellent b. good c. fair d. poor Writing: a. excellent b. good c. fair d. poor

18. State why you wish to attend the course and indicate the practical use of the course to your work in the future.

#### II. Insurance

I fully understand that the seminar organizer does not take any responsibility for such risks as loss of life, accidents, illness, loss of property etc.

#### **III. Personal Statement**

I hereby declare that the information given above is true, correct, and complete. I shall bear the responsibility for the above information.

Date Signature of the Applicant

# **IV. Local Support Application**

Please indicate whether local support is required in the form of the accommodation and meals during the training period.

Applying for local support:

□ yes □ no

If you are unable to obtain local support from the organizer, will you and your government pay for the above expenses?

□ yes □ no

If you require travel support, to whom do you intend to apply?

#### V. Endorsement of the Nominator

- 1. Name of Organization
- 2. Name and Signature of The Permanent Representative with WMO,

Name

Signature

Date

#### Annex to draft Decision 10.1/4 (EC-69)

#### CRITERIA ON AWARD OF FELLOWSHIPS AND TRAINING SPONSORSHIPS

#### 1. Criteria for the award of WMO fellowships

- 1.1 The aim of the WMO Fellowship Programme is to support the education and training of qualified and suitable candidates, particularly from least developed and developing countries and Small Island Developing States.
- 1.2 WMO may award both short-term (more than one month and less than six months) and long-term (6 months or longer) fellowships, based on recommendations of the Education and Training Committee (ETCOM) and in alignment with the priorities of the Education and Training Programme.
- 1.3 To be considered by the ETCOM for a fellowship, candidates must:
- (a) Complete a Fellowship Nomination Form, which must be certified by the Permanent Representative of the recipient Member with WMO;
- (b) Meet the entry requirements for the proposed course of study, and obtain a conditional offer/admission for the course:
- (c) Be proficient in, or capable of learning in, the language of study;
- (d) Be of sound health as confirmed by their completed medical certificate;
- (e) Only apply for courses of study directly applicable to WMO Programme areas.
- 1.4 In awarding a fellowship, preference will be given to candidates who:
- (a) Come from the NMHSs of least developed countries as well as developing countries, countries with economies in transition, small island developing states, and countries more vulnerable to natural disasters;
- (b) Are supported by cost-sharing;
- (c) Apply for courses at RTCs or other training institutions in their Region;
- (d) Are expected to work and make a long-term contribution in the NMHS of their country in a suitable post on completion of the fellowship;
- (e) Have not been awarded a long-term WMO fellowship within the previous four years;
- (f) Have not recently benefited from a WMO fellowship.
- 1.5 In awarding a fellowship, account will be taken of:
- (a) The need for regional proportional balance;
- (b) The need to practice equal opportunity policies (Resolution 33 (Cg-XIV) Equal opportunities for the participation of women in meteorology and hydrology);

(c) The Permanent Representative from the candidates' country has provided WMO with the required report from any previous fellowship.

# 2. Criteria for the award of WMO short-term training opportunities

- 2.1 Permanent Representative (PR): In making nominations for short-term training courses, the PR should:
- (a) Annually set staff education and training requirements based on the Member's plans and requirements;
- (b) Make nominations only for high priority training needs;
- (c) Exercise discretion in requesting financial support, seeking internal funding first;
- (d) Follow procedures for making nominations and requests for support;
- (e) Meet the deadlines for course applications.
- 2.2 Nominees: In applying for short-term courses, the nominees should:
- (a) Review the course qualification requirements;
- (b) Be prepared with a serious intent to learn;
- (c) Be timely in completing all steps in the process.
- 2.3 Supervisors: In having staff members apply for short-courses, the supervisor should:
- (a) Be sure that only qualified staff make applications;
- (b) Work to spread training opportunities among staff members.
- 3. Criteria for consideration of requests for a familiarization visit by recently appointed Permanent Representative (PR) of a country with WMO<sup>1</sup>
- 3.1 The aim of familiarization visits for recently appointed Permanent Representatives (PRs) is to support management capability of the suitable candidates particularly from least developed and developing countries.
- 3.2 To be considered for a familiarization visit the applicant must meet the following criteria:
- (a) A formal notification of the appointment of the PR from the candidate's government must be provided to WMO before the request;
- (b) Candidates applying for a familiarization visit must complete a Request Form for the visit;
- (c) A minimum of six months and no more than four years has elapsed between the commencement of taking up her/his duties and the proposed start of the familiarization visit;
- (d) The applicant is expected to continue her/his role as PR for a minimum of two years following the familiarization visit;

\_

The funds should be available, with the view to maintain annual expenditure on familiarization visits to less than 10% of the funds available to fellowships from the Regular Budget.

- (e) The applicant has not had previous exposure to WMO activities that are relevant to the familiarization visit;
- (f) The beneficiary country has not benefited from support for a familiarization visit in the past two years prior to the receipt of the visit request;
- (g) Be able to undertake the visit within six months of an official offer by the Secretary-General;
- (h) Opportunities should be sought to co-fund the proposed visit with other programmes, conferences, workshops, etc.
- 3.3 The visit is confined to a visit to WMO headquarters in Geneva and a visit to a Member close to WMO headquarters, or a visit to a Member within the Region, with a relatively more developed National Meteorological and Hydrological Service;
- 3.4 The visit is to be implemented in one working week;
- 3.5 During the visit the PR shall make a presentation to the WMO Secretariat and optional host Member on their NMHS services and requirements.
