Вопрос: Региональный практический семинар ВМО/КМА по теме «Прогнозы с учетом воздействий в РА-II (Азия)», Сеул, Республика Корея, 7—9 ноября 2017 г.

Предлагаемые меры: Заполнить и вернуть форму участия местному координатору программы практического семинара **не позднее 17 октября 2017 г.**

Уважаемый господин/Уважаемая госпожа!

Рада сообщить Вам о том, что Корейская метеорологическая администрация (КМА) проведет региональный практический семинар ВМО/КМА по теме «Прогнозы с учетом воздействий в Региональной ассоциации (РА) II (Азия)» в Сеуле, Республика Корея, с 7 по 9 ноября 2017 г.

Этот практический семинар будет проводиться в качестве части экспериментального проекта по прогнозированию с учетом воздействий, который был утвержден в ходе шестнадцатой сессии РА II в феврале этого года.

В ходе этого практического семинара будут затрагиваться и обсуждаться следующие основные темы:

- статус осуществления прогнозирования с учетом воздействий и использования технологий в каждом из государств-членов и территорий-членов;
- статус системы заблаговременных предупреждений о многих опасных явлениях и ее будущее;
- система взаимодействия и навыки коммуникации с соответствующими организациями;
- технология прогнозирования с учетом воздействий в частном секторе;
- технология моделирования воздействий опасных явлений;
- методы калибровки для прогнозирования с учетом воздействий и метод оценки вероятности возникновения рисков.

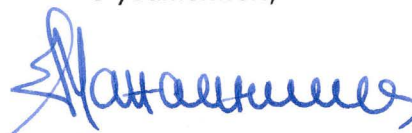

В приложении содержится дополнительная информация о совещании, включая предварительную программу.

Буду признательна, если бы Вы вернули заполненную должным образом форму участия местному координатору программы практического семинара (г-жа Минджун ЮН (Ms Min-JOON YOUN), адрес э-почты: ymj@korea.kr) как можно скорее, но **не позднее 17 октября 2017 г.**

Обратите внимание, что КМА предоставит выбранным участникам из развивающихся стран финансовую поддержку (т. е. авиабилет в оба конца и/или размещение).

Рассчитываю на участие Вашей службы в этом важном практическом семинаре.

С уважением,

(Е. Манаенкова)
за Генерального секретаря

Workshop Overview

1. Title: Regional Workshop on Impact-based Forecasts in RA II (Asia)

2. Date: November 7(Tuesday) ~ November 9(Thursday), 2017

3. Objectives

- a) To enhance NMHSs' capabilities in forecasting and warnings which are impact-based and in multi-hazard configuration
- b) To share experiences and good practices by NMHSs for the successful implementation of multi-hazard impact-based forecasts and risk-based warning services
- c) To establish the International Hazard Partnership among NMHSs in Asia

4. Participants

Participants at this workshop will include those from RA II, WMO secretariat and other members interested in impact-based forecast, including lecturers from UK Met office and Korea.

5. Official Language: English

Regional Workshop on Impact-based Forecasts In RA II (Asia)

Seoul, Republic of Korea, 7–9, November, 2017

INFORMATION NOTE

「Regional Workshop on Impact-based Forecasts in RA II (Asia)」 aim to share experiences and good practices by NMHSs for the successful implementation of multi-hazard impact-based forecasts and risk-based warning services. The Workshop will be held from 7 to 9 November in Seoul, Republic of Korea, hosted by the KMA(Korea Meteorological Administration) and the WMO(World Meteorological Organization).

BACKGROUND

- With the approval of pilot project on impact-based forecast, proposed by the KMA at the 16th session of the RA II on 10 February 2017, the KMA will hold the first Regional Workshop on Impact-based Forecasts in RA II (Asia).
- Even with accurate and timely weather forecasts, many people around the world still lose their lives due to the lack of understanding of the consequences of severe weather events.
- WMO is calling for the establishment and promotion of an impact-based forecasting implementation strategy accordingly.
- To do this, we would like to share experiences and information on the impact-based forecasts of countries in the region.
(To promote the concept of multi-hazard impact-based forecasts, with the aim of sharing relevant information on such services provided or planned to be provided by NMHSs, including the role of future forecasters to identify associated training needs in the Region)

TARGET GROUP

- All countries in Asia, but in particular, those who stand to benefit the most from further development of Multi-Hazard Early Warning Systems(MHEWSs) such as the least developed countries (LDCs), the small island developing states (SIDS) and landlocked developing countries (LLDCs)
- National disaster risk management/civil protection agencies
- National meteorological and hydrological services, geological surveys and institutes, health organizations and related scientific and academic institutions from nations that are interested to share good practice examples
- Government representatives from different sectors-including health, transport, environment, agriculture, finance, development cooperation-requiring hazard information for better planning
- Private sector entities that play a major role in the Impact-based forecasts and the Impact Weather Data Base
- Regional organizations supporting the development and provision of early warnings

MAIN TOPICS

SUBTHEME 1

The status of impact-based forecasting implementation and technology utilization in each country

SUBTHEME 2

The status of multi-hazard early warning system and its future

SUBTHEME 3

Collaboration system and communication skills with relevant organizations

SUBTHEME 4

Impact-based forecast technology in the private sector

SUBTHEME 5

Hazard impact modelling

SUBTHEME 6

Calibration techniques for impact-based forecast and risk probability estimation method

NOTIFICATION

Round-trip air fare or accommodations and meals will be selectively provided to participants from developing countries.

Participants wishing to make a presentation at the Workshop should contact the Program Coordinator, Ms. Min-Jeong YOUN(ymj@korea.kr) by e-mail not later than 10 Oct. 2017.
